14TH YEAR. NO. 6.

EAST LIVERPOOL, O., WEDNESDAY, JUNE 15, 1898.

TWO CENTS

A NEW INVASION.

Active Preparations Being Made by War Department.

RICO THE POINT. PORTO

The Plans So Extensive That an Attack on Havana Might Be Intended.

VOLUNTEERS ARE IN FINE SHAPE.

Those at Chickamauga Park Reaching a Degree of Excellence That Would Warrant Ordering Them Into Active Service if They Were Fully Equipped. General Shafter Will Probably Have Landed In Cuba With His Force Before the Eud of the Week-Report From Tamps Conflicts With a Previous Dispatch Regarding Time and Place of Departure and Other Details.

WASHINGTON, June 15. - Having started the Santiago expedition the was department has now concentrated all its energies in preparation of the force to be sent to Porto Rico. Active movements in that line have been made on a scale so extensive as to lead to the supposition that the attack is to be directed upon Havana, but if this is so there is no open indication of it. The volunteers collected at Chattanooga, 42,000 in number, are reaching a degree of excellence under the magnificent management of General Brooke that would warrant the government in ordering them immediately into active service, but unfortunately there is still a considerable lack of equipment that will not permit of this.

Without reference to the exact hour at which the United States army left Florida for Cuba it may be safely said that before the end of the week General Shafter will have landed with his 15.000 United States troops on Cuban soil, and that the investment of Santiago by land will have begun. There was some confusion in the official mind here yesterday on the time of depart-ure of the transports, though assurance was given that they had all gotten away. The confusion on this point is easily accounted by persons who know anything of the difficulties of moving simultaneously a fleet composed of vessels of all sizes and classes.

No less than three times, beginning Sunday, was a definite hour selected for the start and the war department so notified. Yet in each case some untold obstacle was encountered that required notification to the department that a postponement had been .forced. Sailors say such delays are inevitable, and that rarely does a fleet get off by first intention. However, the department officials stated that they believed the very last of the transports had at last started for Cuba.

The delay of a day in the start is not calculated to make any material difference in the plans and the only persons who will suffer from it will be Sampson's marines, camped on the tropical bay of Guantanimo and obliged to maintain the greatest vigilance in repelling the bushwhacking Spanish irregulars who swarm in the thicket. This foe gives no trouble during the daylight hours, owing to the presence of the Marblehead within easy range, but at night when the warship is unable to distinguish their own men from the enemy the lot of the marines is a very exciting own.

TAMPA, Fla, June 15.—After weeks of waiting and preparation the first army of invasion to start from the eastern shores of the United States departed under the command of General Shafter yesterday morning. The fleet of transports consisted of 35 vessels, 4 tenders and 14 convoys. These are all now upon the Gulf of Mexico, headed southward until they pass Key West at least. If the destination be Cuba they will continue their present course until Cape Antonio, at the west of the island, is doubled, when an easterly course will be sailed until they reach the vicinity of Santiago.

NO PEACE NEGOTIATIONS.

Spanish Minister For Foreign Affairs Says Spain Has Taken No Steps-Carranza and Bu Bosc.

MADRID, June 15 .- The minister for foreign affairs, Duke Almodovar de Rio, told the newspaper men yesterday that the Spanish government had not taken any step in the direction of peace negotia tions.

The minister also said he had not received any confirmation of the reported third attack on Santiago de Cuba.

The minister for war, General Correa, declared the situation at Manila is better than was supposed. He said Captain General Augusti had concentrated 20,000 men for the defense of the city and his batteries of artillery are asserted to comprise 199 long range guns.

It was off cally announced yesterday that Senor Du Bosc, the former Spanish charge d'affaires at Washington, and Lieutenant Carranza, the former Spanish naval attache at Washington, have

Carranza addressed to the manster of marine giving an account of the condi-tion of the American 'fortifications.'"

The Spanish press has increased its ptimism, based on the belief that Germany intends to prevent a bombard-ment of Manila by making a naval demonstration. The newspapers urge sacrifices with the view of securing Germany's assistance, and political leaders express themselves in favor of leaders express themselves in favor of leaders. offering Germany the following con-cessions in return for her "taking the initiative in checking America."

Firstly, naval stations and coaling depots in Spanish Oceanica. Secondly, Spanish concurrence in the development of Germany's commercial and political relations with Morocco.

To Recruit the Tenth.

San Francisco, June 15.—Lieutenant Bernard and a detail of men from the Tenth Pennsylvania have gone back home to recruit the regiment to its maximum strength. They expect to return with the necessary men within a

LIEUTENANT BLUE A HERO.

He Traveled About 72 Miles About Santiago Definitely Locating Copvera's Ships In the Harbor.

ON BOARD DISPATCH BOAT WANDA, OFF SANTIAGO DE CUBA, June 13, via Kingston, Jamaica, June 15.-The delay in the arrival of the transports is ascribed here to a fear that after all Admiral Cervera's squadron might not be in Santiago harbor. Once for all Admiral Sampson decided to settle this question officially and on Saturday last he sent Lieutenant Victor Blue of the gunboat Suwanee to investigate. Lieutenant Blue landed on Saturday and proceeded with guides to the hills overlooking the harbor and the city. He distinctly saw and definitely located four Spanish armored cruisers and two torpedeboat destroyers. He saw also

three small cruisers or gunboats.

The results of his expedition he reported this morning (Monday) to Admiral Sampson on the deck of the flagship New York. Lieutenant Blue traveled about 72 miles, following the eastward line of the city. He brought out to the flagship a copy of a Santiago paper issued last Saturday, in which complaint is made that the navy and army are failing to distribute to the

citizens their proportions of the provisions remaining in the city.

Lieutenant Blue's report has definitely exposed the fiction that any of Cervera's cruisers were in the Bahamas or in a position to attack the transports which are now confidently expected at an early date. Admiral Sampson complimented him upon his daring and successful mission.

WASHINGTON, June 15 .- The navy department yesterday posted the following bulletin:

MOLE ST. NICHOLAS, June 13. Lieutenant Blue has just returned after a detour of 70 statute miles of observation of the harbor of Santiago de Cuba. He reports the Spanish fleet is all there.

The Spanish attacked vigorously the camp at Guantanamo. An outpost of four marines were killed and their bodies mutilated barbarously. Surgeon Gibbs was killed. SAMPSON. Gibbs was killed.

COMPLICATIONS OVER CABLES.

Negotiations Under Way to Permit Their Use by Dewey and Sampson.

WASHINGTON, June 15 .- An unexpected complication has arisen as to the right of Admiral Sampson at Santiago and Admiral Dewey at Manila to use cables which each has secured with a view to bringing them into direct telegraphic communication with the authorities here. It is understood by officials here that Admiral Dewey secured the shore end of the cable leading from Manila to Hongkong some time ago and buoyed it with a view to sending dispatches.

The same condition understood to exist at Santiago de Cuba, where Admiral Sampson has buoyed the shore end of the cable with a view to repairing and using it. But no messages have been sent, and the question has arisen as to whether it is allowable under the rules of neutrality for the French and British companies owning these lines to permit them to be used for

strictly military purposes. It was stated last night that negotiations were now progressing which gave promise of a satisfactory understanding with the companies, and the forwarding of such messages as the American admirals send.

Strong Evidence Against Clemmer.

Norristown, Pa., June 15.—Lizzie Dekalb, Clemmer's alleged accomplice in the Mrs. Kaiser murder, was placed upon the stand and for nearly three hours gave testimony in the trial yesterday which, if true, makes Clemmer the actual murderer of Mrs. Kaiser. The dead woman's husband has been already convicted, Clemmer being on trial as an accomplice.

Holy Shroud Photographed.

Rome, June 15.—The organ of the vatican, The Osservatore Romano, publishes from Turin an account of the photographing of the holy shroud, recently exposed. King Humbert, who is the guardian of the relic, authorized the photograph which, when developed, the photograph which, when developed, is said to have displayed in perfect out-

Stood Off an Attack of About 3,000 Spanish.

FIFTEEN DEAD DONS FOUND.

Small Force of Americans Exhausted With Repelling the Attacks.

TWO MARINES REPORTED KILLED.

The Injured Said to Number Four-Another Report Differs From This as to the Killed and Wounded-Were It Not For the Protecting Guns of the Fleet the Little Band Would Likely Be Overcome by Superior Numbers-Gallant and Successful Attack on a Stone Fort by a Scounting Party Under Lieutenant Neville-The Dead Spaniards Found After This Assault.

CAMP OF THE UNITED STATES MA-RINES, OUTER HARBOR OF GUANTANAMO, Monday, June 13, by the dispatch boat Wanda, via Kingston, Jamaica, June 15.—After two nights of hard fighting the American flag still floats on Cuban soil over the encampment of the marine battalion and our boys say they will keep it there until the belated troops arrive if it takes till winter.

Thus far the marines have had the best of the fighting, but the situation is grave and they are exhausted with repelling almost incessant attacks. They have little chance to rest or sleep and the time of the arrival of the relieving troops is uncertain. Were it not for the protecting guns of the fleet the gallant little band would be annihilated by the Spanish troops in overpowering numbers from Santiago de Cuba. As it is they probably can hold their position, but they cannot move forward until re-

inforced by troops.

The tents have been struck and rolled into breastworks, supplemented by trenches around the crest of the hili. The spot is lamentably exposed, on ground, while surrounding it on all sides is heavy brush. The least movement in the camp is the signal for instant target practice upon the part of the Spanish sharpshooters, whose rifles carry much further than ours, though their owners rarely hit anything they

aim at. After the first attack on Saturday night, Colonel Huntington decided that another attempt would be made on Sunday night and he caused entrenchments to be thrown up on all sides of the camp and in the trenches the main part of the battelion last night waited for the attack that the colonel was certain would come. It arrived within a short time after dark and from that time until after daybreak the firing was incessant and at times very heavy.

On the American side two men were killed and four injured. The dead are: Sergeant Major Henry Goode of the marines, shot through the right breast. Private Tauman, wounded and fell off the cliff and was instantly killed. The injured are:

Private Wallace, fell off the cliff and sustained a fracture of the leg.

Private Martin, shot through the left

leg. Private Roxbury, shot through the arm.

The above are all privates belonging to Company D. Private Burke, shot through the arm.

The first attack of the Spaniards was made about 8 o'clock, and the last shot was fired by them at about 3 o'clock in the morning.

During the night the Spaniards attacked the camp of the marines on the shore, and the Marblehead, believing the Americans had been driven out, threw several shells into the place. The attack, however, was repulsed by the small detachment of marines in camp without trouble. The shells of the Marblehead struck among the marines.

The fight was the first of the war in which the Cubans co-operated with the American forces and their co-operation was not a glittering success. At one time during the afternoon whenever the marines were firing on a small detachment of Spaniards that made their appearance a short distance from the camp, the Cubans began firing without orders and sent a volley right among the Americans. There were several very narrow escapes, but no one was injured.

Lieutenant Neville of Company D was sent out on scout duty and, as on the day previous, he attacked a small stone fort. A hot fight followed and the Spaniards were driven off with loss. It was during this fight that Wallace and Tauman fell over the cliff.

Fifteen dead Spaniards, including one lieutenant, were found in the fort.

During the attack several shots struck the ships in the harbor, one penetrating the pilot house of the dispatch boat Dandy. No one was injured on board

of her. The Dolphin this morning located the Spanish water station on the ocean side of the harbor entrance, which supplied the water for the attacking force. The well was situated in a blockhouse windmill having a strong garrison. It was shelled at 2,000 yards. Excellent practice was made, the station was wrecked

Spaniards up the steep ravine. The arrival of the fleet to complete the bombardment of the town and its defenses is expected this afternoon.

The discovery of the bodies of 15 Spaniards, including a lieutenant, shows how deadly was the American defense. The Spanish sent 3,000 men by train from the city of Guantanamo to attack them, but, pressed by the American fire, the Spanish were unable to reach the earthworks. The Marblehead shelled the woods, but could not locate the Spanish line with accuracy. She has since been reinforced by the Dolphin.

There is some conflict as to the precise nature of the casualties on the Amer-

ican side.

One report says that Sergeant Major Henry Goode and Private Tauman were killed, the former by a bullet and the latter by a fall from the cliff, and that four privates were wounded. Another report gives the killed as two marines and the injured as Sergeant Major Goode and Private Tauman.

ARMY CONCENTRATION POINT.

A Board Appointed by Secretary Alger Examined Several Points.

WASHINGTON, June 15 .- The board appointed by Secretary Alger to select a sultable concentration point on the Atlantic gulf coast with a view of establishing a point of embarkation for future expeditions returned yesterday and immediately set about for a preparation of its report. The board consists of Colonel Greenleaf, Major Hodson, Major Hopkins and Lieutenant Jadwin. They visited Columbia, Charleston and Summerville, in South Carolina; Savannah, Brunswick and Augusta, in Georgia, and Fernandina and Jacksonville, in Florida.

The report will not recommend specially any one city, but will set forth the advantages and disadvantages of each, in the matter of railroad facilities, depth of water for transports, camp grounds, water supply, sanitation, etc. While no point will be recommended, it is said that the report will make clear the obvious advantage of one or more of the cities, so that Secretary Alger can readily make a selection.

THE NEW POPULAR LOAN.

Indications Are That It Will Be Very Largely Oversubscribed.

WASHINGTON, June 15 .- The work of sending out circulars to the public regarding the new popular loan of \$200,-000,000 is practically completed. Already a large number of applications for the new bonds have been received, among them several for considerable amounts from residents of this city.

Most of them, however, were irregular, inasmuch as the applications were not made on blanks provided for the purpose. These will be returned to the senders together with the proper blanks to be filled out and returned. The indications now are that the loan will be largely oversubscribed.

Bryan Opposes Territorial Expansion. OMAHA, June 15. - The Nebraska Juilding at the exposition was dedicated yesterday. Hon. William J. cated yesterday. Hon. William J. Bryan in his oration took a high ground on the question urging that the war is for humanity and not for the extension of United States territory. In concluding he said the manifest destiny of this nation is not to acquire new realms to govern, but to carry out the fundamental principles of democracy to the end that equality among the citizens may be secured.

OHIO METHODISM.

the Centennial to Be Celebrated Next Week at Delaware-President to Attend.

DELAWARE, O., June 15.—Hon. D. S. Gray, vice president of the Pennsylvania lines, has placed a private car at the disposal of President McKinley, who has promised to attend the centennial of Ohio Methodism, which will be celebrated here next week.

The train will leave Washington at 3:45 Monday afternoon, arriving in this city the following morning. The president's reception occurs on Tuesday evening, after which he will leave for Washington, arriving there Wednesday morning.

A BOILER EXPLODED.

Fatal Accident of the Incline Near the City of Ironton.

IRONTON, June 15 .- The Iron Railway engine boiler, John Campbell, blew up yesterday on the incline above the city. Engineer Robert Royer was killed, body not found; Conductor Charles Meyers, head cut, seriously injured; Fireman Andy Foit, terribly scalded, will die; Brakeman Hobble, fatally injured; Brakeman Charles Tulga, cut and bruised, serious.

The front of the boiler was blown up over the river bank and through a barn, narrowly missing a dwelling. The en-gine was blown to atoms. Cause of accident unknown. All the men are residents of Ironton.

Five Miners Killed.

AURORA, Mo., June 15 .- An accident in the mine of the Mount Vernon company at Stotts City, a mining camp 20 miles from this city, has resulted in the death of five miners.

ABOARD SHIPS.

Troops Ready to Leave For the Philippines.

THEY MAY SAIL TODAY.

But Very Likely the Start Will Be Delayed Until Tomorrow.

PENNSYLVANIANS ON ZEALANDIA.

Brigadier General Greene Is In Command of the Expedition-On Going to the Transports Most of the Commanding Officers Took Their Men Down Golden Gate Avenue - Many People Congregated at Different Points-Some of the Business Houses Decorated, When the Boys Left Camp Many of the Soldiers Remaining Cheered Them. Companies All Passed Inspection.

SAN FRANCISCO, June 15. - About 3,500 soldiers are aboard the transports which are to form the second expedition against the Philippines. Today has been set for sailing, but it is doubtful if the voyage begins before tomorrow. The fleet will be made up as follows:

Steamer China-First Colorado infantry, two Utah batteries light artil-lery and half of the Eighteenth regi-

ment, United States infantry.

Steamer Colon—Twenty-third United
States infantry and half of the Eighteenth United States infantry.

Steamer Zealandia—Tenth Pennsyl-

vania volunteer infantry. Steamer Senator—First Nebraska vol-

unteer infantry. Brigadier General Greene is in command of the expedition. His adjutant general is Captain Bates of the Seventy-first New York volunteers.

When everything was ready for the When everything was ready for the five-mile march to the water front the men were lined up for the journey in heavy marching order yesterday. The streets presented a wonderfully realistic military scene as one by one the companies were marched to the parade ground and the last evolutions in Camp Merritt gone through with. The companies all passed inspection and, as they marched through the camp, the soldiers who were to be left behind gave the departing soldiers show many gave the departing soldiers cheer upon cheer.

One by one the companies took their departure and it was nearly noon when the last left the camp. Most of the commanding officers took their men down Golden Gate avenue, which thoroughfare was lined with people anxious to view the parade. Business houses were all decorated for the occasion, some had hired bands to play patriotic airs, but the music furnished was almost drowned out at times by the noise of exploding bombs.

The transports left their docks for anchorage in the stream last evening. the work of trimming cargoes having been completed. It has been given out that the vessels will get away for Manila today some time, but from official sources it is learned that much remains to be done before the fleet can take its departure and that tomorrow will probably be the day set for the commencement of the voyage.

ARMOUR IN CHARGE.

Took Hold of Leiter's Cash Wheat In Northwest - Creditors May Lose Nothing-Attachments Issued.

CHICAGO, June 15 .- P. D. Armour took charge of Joseph Leiter's cash wheat in the northwest, amounting to 4,000,000 or 5,000,000 bushels yesterday. Semi-authoritative information is also obtained that Armour will take up all of Leiter's wheat.

It is generally admitted the charge to Armour clears the atmosphere to a considerable extent and if trustees are necessary to liquidate the rest of Leiter's cash wheat in this city, New York, afloat and in European storehouses, it will not require much time to dispose of the remaining 3,000,000 bushels or more.

There will apparently be little diffi-culty in winding up the deal inasmuch as it is authoritatively stated that bins have been received for all cash wheat that Leiter has.

There is a fair prospect that Leiter's creditors will lose nothing and that the wheat will bring in sufficient with re-

covering markets to pay all claims.

An attachment for \$793,000 procured in New York by Lohrke, the grain exporter, against Joseph Leiter was served yesterday, but was released by Lohrke when the arrangement with Armour & Co. was completed.

Arrested on a Forgery Unarge.

CHICAGO, June 15.—Perry Lee Downs, alias Phil Davis, lieutenant colonel of the Blue and Gray Legion, has been arrested charged with forging three years ago railroad bonds to the value of \$280,000, on requisition papers from Governor Tanner and the governor of Maryland. Downs is a relative of General Fitzhugh Lee and Jefferson Davis. He was started to Baltimore.

to the "Canadian authorities having line the holy leadures, name and limbs intercepted a letter which Lieutenant of Christ.

14TH YEAR. NO. 6.

TWO CENTS

NEW INVASION.

Active Preparations Being Made by War Department.

PORTO RICO THE POINT.

The Plans So Extensive That an Attack on Havana Might Be Intended.

VOLUNTEERS ARE IN FINE SHAPE.

Those at Chickamauga Park Reaching a Degree of Excellence That Would Warrant Ordering Them Into Active Service if They Were Fully Equipped. General Shafter Will Probably Have Landed In Cuba With His Force Before the Eud of the Week-Report From Tamps Conflicts With a Previous Dispatch Regarding Time and Place of Departure and Other Details.

WASHINGTON, June 15. - Having started the Santiago expedition the was department has now concentrated all its energies in preparation of the force to be sent to Porto Rico. Active movements in that line have been made on a scale so extensive as to lead to the supposition that the attack is to be directed upon Havana, but if this is so there is no open indication of it. The volunteers collected at Chattanooga, 42,000 in number, are reaching a degree of excellence under the magnificent management of General Brooke that would warrant the government in ordering them immediately into active service, but unfortunately there is still a considerable lack of equipment that will not permit of this.

Without reference to the exact hour at which the United States army left Florida for Cuba it may be safely said that before the end of the week General Shafter will have landed with his 15,000 United States troops on Cuban soil, and that the investment of Santiago by land will have begun. There was some confusion in the official mind here yesterday on the time of departare of the transports, though assurance was given that they had all gotten away. The confusion on this point is easily accounted by persons who know anything of the difficulties of moving simultaneously a fleet composed of vessels of all sizes and classes.

No less than three times, beginning Sunday, was a definite hour selected for the start and the wardepartment so notified. Yet in each case some untold obstacle was encountered that required notification to the department that a postponement had been .forced. Sailors say such delays are inevitable, and that rarely does a fleet get off by first intention. However, the department officials stated that they believed the very last of the transports had at last started for Cuba.

The delay of a day in the start is not calculated to make any material difference in the plans and the only persons who will suffer from it will be Sampson's marines, camped on the tropical bay of Guantanimo and obliged to maintain the greatest vigilance in repelling the bushwhacking Spanish irregulars who swarm in the thicket. This foe gives no trouble during the daylight hours, owing to the presence of the Marblehead within easy range, but at night when the warship is unable to distinguish their own men from the enemy the lot of the marines is a very exciting own.

TAMPA, Fla, June 15.—After weeks of waiting and preparation the first army of invasion to start from the eastern shores of the United States departed under the command of General Shafter yesterday morning. The fleet of transports consisted of 35 vessels, 4 tenders and 14 convoys. These are all now upon the Gulf of Mexico, headed southward until they pass Key West at least. If the destination be Cuba they will continue their present course until Cape Antonio, at the west of the island, is doubled, when an east-erly course will be sailed until they reach the vicinity of Santiago.

NO PEACE NEGOTIATIONS.

Spanish Minister For Foreign Affairs Says Spain Has Taken No Steps-Carranza and Bu Bosc.

MADRID, June 15 .- The minister for foreign affairs, Duke Almodovar de Rio, told the newspaper men yesterday that the Spanish government had not in the Mrs. Kaiser murder, was placed taken any step in the direction of peace negotia tions.

The minister also said he had not received any confirmation of the reported third attack on Santiago de Cuba.

The minister for war, General Correa, declared the situation at Manila is better than was supposed. He said Captain General Augusti had concentrated 20,000 men for the defense of the city and his batteries of artillery are asserted to comprise 199 long range guns.

It was off cally announced yesterday that Senor Du Bosc, the former Spanish charge d'affaires at Washington, and

to the "Canadian authorities having line the holy leatures, manut and kimbs intercepted a letter which Lieutenant of Christ.

Carranza addressed to the manister of marine giving an account of the condi-tion of the American 'fortifications.'"

The Spanish press has increased its The Spanish press has increased its ptimism, based on the belief that Germany intends to prevent a bombardment of Manila by making a naval demonstration. The newspapers urge sacrifices with the view of securing Cormony's assistance and political Germany's assistance, and political leaders express themselves in favor of offering Germany the following con-cessions in return for her "taking the initiative in checking America.'

Firstly, naval stations and coaling depots in Spanish Oceanica. Secondly, Spanish concurrence in the development of Germany's commercial and political relations with Morocco.

To Recruit the Tenth.

San Francisco, June 15.—Lieutenant Bernard and a detail of men from the Tenth Pennsylvania have gone back home to recruit the regiment to its maximum strength. They expect to return with the necessary men within a

LIEUTENANT BLUE A HERO.

He Traveled About 72 Miles About Santiago Definitely Locating Corvera's Ships In the Harbor.

ON BOARD DISPATCH BOAT WANDA, OFF SANTIAGO DE CUBA, June 13, via Kingston, Jamaica, June 15 .- The delay in the arrival of the transports is ascribed here to a fear that after all Admiral Cervera's squadron might not be in Santiago harbor. Once for all Admiral Sampson decided to settle this question officially and on Saturday last he sent Lieutenant Victor Blue of the gunboat Suwanee to investigate. Lieutenant Blue landed on Saturday and proceeded with guides to the hills overlooking the harbor and the city. He distinctly saw and definitely located four Spanish armored cruisers and two torpedeboat destroyers. He saw also three small cruisers or gunboats.

The results of his expedition he reported this morning (Monday) to Admiral Sampson on the deck of the flagship New York. Lieutenant Blue traveled about 72 miles, following the eastward line of the city. He brought out to the flagship a copy of a Santiago paper issued last Saturday, in which complaint is made that the navy and army are failing to distribute to the citizens their proportions of the provisions remaining in the city.

Lieutenant Blue's report has defi-

nitely exposed the fiction that any of Cervera's cruisers were in the Bahamas or in a position to attack the transports which are now confidently expected at an early date. Admiral Sampson complimented him upon his daring and successful mission.

WASHINGTON, June 15 .- The navy department yesterday posted the following bulletin:

MOLE ST. NICHOLAS, June 13. Lieutenant Blue has just returned after a detour of 70 statute miles of observation of the harbor of Santiago de Cuba. He reports the Spanish fleet is all there.

The Spanish attacked vigorously the camp at Guantanamo. An outpost of four marines were killed and their bodies mutilated barbarously. Surgeon Gibbs was killed. Sampson. Gibbs was killed.

COMPLICATIONS OVER CABLES.

Negotiations Under Way to Permit Their Use by Dewey and Sampson.

Washington, June 15 .- An unexpected complication has arisen as to the right of Admiral Sampson at Santiago and Admiral Dewey at Manila to use cables which each has secured with a view to bringing them into direct telegraphic communication with the authorities here. It is understood by officials here that Admiral Dewey secured the shore end of the cable leading from Manila to Hongkong some time ago and buoyed it with a view to sending dispatches.

The same condition understood to exist at Santiago de Cuba, where Admiral Sampson has buoyed the shore end of the cable with a view to repairing and using it. But no messages have been sent, and the question has arisen as to whether it is allowable under the rules of neutrality for the French and British companies owning these lines to permit them to be used for

strictly military purposes. It was stated last night that negotiations were now progressing which gave promise of a satisfactory understanding with the companies, and the forwarding of such messages as the American admirals send.

Strong Evidence Against Clemmer.

Norristown, Pa., June 15.—Lizzie Dekalb, Clemmer's alleged accomplice upon the stand and for nearly three hours gave testimony in the trial yesterday which, if true, makes Clemmer the actual murderer of Mrs. Kaiser. The dead woman's husband has been already convicted, Clemmer being on trial as an accomplice.

Holy Shroud Photographed.

ROME, June 15.—The organ of the vatican, The Osservatore Romano, publishes from Turin an account of the photographing of the holy shroud, recently exposed. King Humbert, who is the guardian of the relic, authorized ish naval attache at Washington, have the photograph which, when developed,

BRAVE MARINES.

Stood Off an Attack of About 3,000 Spanish.

FIFTEEN DEAD DONS FOUND.

Small Force of Americans Exhausted With Repelling the Attacks.

TWO MARINES REPORTED KILLED.

The Injured Said to Number Four-Another Report Differs From This as to the Killed and Wounded-Were It Not For the Protecting Guns of the Fleet the Little Band Would Likely Be Overcome by Superior Numbers-Gallant and Successful Attack on a Stone Fort by a Scounting Party Under Lieutenant Neville-The Dead Spaniards Found After This Assault.

CAMP OF THE UNITED STATES MA-RINES, OUTER HARBOR OF GUANTANAMO, Monday, June 13, by the dispatch boat Wanda, via Kingston, Jamaica, June 15.—After two nights of hard fighting the American flag still floats on Cuban soil over the encampment of the marine battalion and our boys say they will keep it there until the belated troops arrive if it takes till winter.

Thus far the marines have had the best of the fighting, but the situation is grave and they are exhausted with repelling almost incessant attacks. They have little chance to rest or sleep and the time of the arrival of the relieving troops is uncertain. Were it not for the protecting guns of the fleet the gallant little band would be annihilated by the Spanish troops in overpowering numbers from Santiago de Cuba. As it is they probably can hold their position, but they cannot move forward until reinforced by troops.

The tents have been struck and rolled into breastworks, supplemented by trenches around the crest of the hili. The spot is lamentably exposed, on ground, while surrounding it on all sides is heavy brush. The least movement in the camp is the signal for instant target practice upon the part of the Spanish sharpshooters, whose rifles carry much further than ours, though their owners rarely hit anything they aim at.

After the first attack on Saturday night, Colonel Huntington decided that another attempt would be made on Sunday night and he caused entrenchments to be thrown up on all sides of the camp and in the trenches the main part of the battalion last night waited for the attack that the colonel was certain would come. It arrived within a short time after dark and from that time until after daybreak the firing was incessant and at times very heavy.

On the American side two men were killed and four injured. The dead are: Sergeant Major Henry Goode of the marines, shot through the right breast. Private Tauman, wounded and fell off the cliff and was instantly killed.

The injured are: Private Wallace, fell off the cliff and

sustained a fracture of the leg.
Private Martin, shot through the left leg. Private Roxbury, shot through the

arm. The above are all privates belonging to Company D.

Private Burke, shot through the arm. The first attack of the Spaniards was made about 8 o'clock, and the last shot was fired by them at about 3 o'clock in the morning.

During the night the Spaniards attacked the camp of the marines on the shore, and the Marblehead, believing the Americans had been driven out. threw several shells into the place. The attack, however, was repulsed by the small detachment of marines in camp without trouble. The shells of the Marblehead struck among the marines.

The fight was the first of the war in which the Cubans co-operated with the American forces and their co-operation was not a glittering success. At one time during the afternoon whenever the marines were firing on a small detachment of Spaniards that made their appearance a short distance from the camp, the Cubans began firing without orders and sent a volley right among the Americans. There were several very narrow escapes, but no one was injured.

Lieutenant Neville of Company D was sent out on scout duty and, as on the day previous, he attacked a small stone fort. A hot fight followed and the Spaniards were driven off with loss. It was during this fight that Wallace and Tauman fell over the cliff.

Fifteen dead Spaniards, including one lieutenant, were found in the fort. During the attack several shots struck the ships in the harbor, one penetrating the pilot house of the dispatch boat Dandy. No one was injured on board

of her. The Dolphin this morning located the spanish water station on the ocean side of the harbor entrance, which supplied the water for the attacking force. The well was situated in a blockhouse windid to have displayed in perfect out-the holy leatures, manute and limbs shelled at 2,000 yards. Excellent practice was made, the station was wrecked

and cannister lonowed the retreating Spaniards up the steep ravine. The arrival of the fleet to complete the bombardment of the town and its defenses is expected this afternoon.

The discovery of the bodies of 15 Spaniards, including a lieutenant, shows how deadly was the American defense. The Spanish sent 3,000 men by train from the city of Guantanamo to attack them, but, pressed by the American fire, the Spanish were unable to reach the earthworks. The Marblehead shelled the woods, but could not locate the Spanish line with accuracy. She has since been reinforced by the Dolphin.

There is some conflict as to the precise nature of the casualties on the American side.

One report says that Sergeant Major Henry Goode and Private Tauman were killed, the former by a bullet and the latter by a fall from the cliff, and that four privates were wounded. Another report gives the killed as two marines and the injured as Sergeant Major Goode and Private Tauman.

ARMY CONCENTRATION POINT.

A Board Appointed by Secretary Alger Examined Several Points.

WASHINGTON, June 15.-The board appointed by Secretary Alger to select a sultable concentration point on the Atlantic gulf coast with a view of establishing a point of embarkation for future expeditions returned yesterday and immediately set about for a preparation of its report. The board consists of Colonel Greenleaf, Major Hodson, Major Hopkins and Lieutenant Jadwin. They visited Columbia, Charleston and Summerville, in South Carolina; Savannah, Brunswick and Augusta, in Georgia, and Fernandina and Jacksonville, in Florida.

The report will not recommend specially any one city, but will set forth the advantages and disadvantages of each, in the matter of railroad facilities, depth of water for transports, camp grounds, water supply, sanitation, etc. While no point will be recommended, it is said that the report will make clear the obvious advantage of one or more of the cities, so that Secretary Alger can readily make a selection.

THE NEW POPULAR LOAN.

Indications Are That It Will Be Very Largely Oversubscribed.

WASHINGTON, June 15 .- The work of sending out circulars to the public regarding the new popular loan of \$200,-000,000 is practically completed. Already a large number of applications for the new bonds have been received, among them several for considerable amounts from residents of this city.

Most of them, however, were irregular, inasmuch as the applications were not made on blanks provided for the purpose. These will be returned to the senders together with the proper blanks to be filled out and returned. The indications now are that the loan will be largely oversubscribed.

Bryan Opposes Territorial Expansion.

OMAHA, June 15. - The Nebraska Juilding at the exposition was dedicated yesterday. Hon. William J. Bryan in his oration took a high ground on the question urging that the war is for humanity and not for the extension of United States territory. In concluding he said the manifest des-tiny of this nation is not to acquire new realms to govern, but to carry out the fundamental principles of democracy to the end that equality among the citizens may be secured.

OHIO METHODISM.

The Centennial to Be Celebrated Next Week at Delaware-President to Attend.

DELAWARE, O., June 15.—Hon. D. S. Gray, vice president of the Pennsylvania lines, has placed a private car at the disposal of President McKinley, who has promised to attend the centennial of Ohio Methodism, which will be celebrated here next week.

The train will leave Washington at 3:45 Monday afternoon, arriving in this city the following morning. The president's reception occurs on Tuesday evening, after which he will leave for Washington, arriving there Wednesday morning.

A BOILER EXPLODED.

Fatal Accident on the Incline Near the City of Ironton.

IRONTON, June 15 .- The Iron Railway engine boiler, John Campbell, blew up yesterday on the incline above the city. Engineer Robert Royer was killed, body not found; Conductor Charles Meyers, head cut, seriously injured; Fireman Andy Foit, terribly scalded, will die; Brakeman Hobble, fatally injured; Brakeman Charles Tulga, cut and bruised, serious.

The front of the boiler was blown up over the river bank and through a barn, narrowly missing a dwelling. The engine was blown to atoms. Cause of accident unknown. All the men are residents of Ironton.

Five Miners Killed.

AURORA, Mo., June 15 .- An accident in the mine of the Mount Vernon company at Stotts City, a mining camp 20 miles from this city, has resulted in the death of five miners.

ABOARD SHIPS.

Troops Ready to Leave For the Philippines.

THEY MAY SAIL TODAY.

But Very Likely the Start Will Be Delayed Until Tomorrow.

PENNSYLVANIANS ON ZEALANDIA.

Brigadier General Greene Is In Command of the Expedition-On Going to the Transports Most of the Command. ing Officers Took Their Men Down Golden Gate Avenue - Many People Congregated at Different Points-Some of the Business Houses Decorated. When the Boys Left Camp Many of the Soldiers Remaining Cheered Them. Companies All Passed Inspection.

SAN FRANCISCO, June 15. - About 3,500 soldiers are aboard the transports which are to form the second expedition against the Philippines. Today has been set for sailing, but it is doubtful if the voyage begins before tomorrow. The fleet will be made up as follows:

Steamer China-First Colorado infantry, two Utah batteries light artil-

lery and half of the Eighteenth regiment, United States infantry.

Steamer Colon—Twenty-third United States infantry and half of the Eighteenth United States infantry.

Steamer Zealandia—Tenth Pennsylvenia volunteer infantry.

vania volunteer infantry. Steamer Senator—First Nebraska vol-

unteer infantry. Brigadier General Greene is in com-

mand of the expedition. His adjutant general is Captain Bates of the Seventyfirst New York volunteers.

When everything was ready for the five-mile march to the water front the men were lined up for the journey in heavy marching order yesterday. The streets presented a wonderfully realistic military scene as one by one the companies were marched to the parade ground and the last evolutions in Camp Merritt gone through with. The com-panies all passed inspection and, as they marched through the camp, the soldiers who were to be left behind gave the departing soldiers cheer upon

One by one the companies took their departure and it was nearly noon when the last left the camp. Most of the commanding officers took their men down Golden Gate avenue, which thoroughfare was lined with people anxious to view the parade. Business houses were all decorated for the occasion, some had hired bands to play patriotic airs, but the music furnished was almost drowned out at times by the noise

of exploding bombs. The transports left their docks for anchorage in the stream last evening, the work of trimming cargoes having been completed. It has been given out that the vessels will get away for Manila today some time, but from official sources it is learned that much remains to be done before the fleet can take its departure and that tomorrow will probably be the day set for the commencement of the voyage.

ARMOUR IN CHARGE.

Took Hold of Leiter's Cash Wheat In Northwest - Creditors May Lose Nothing-Attachments Issued.

CHICAGO, June 15 .- P. D. Armour took charge of Joseph Leiter's cash wheat in the northwest, amounting to 4,000,000 or 5,000,000 bushels yesterday. Semi-authoritative information is also obtained that Armour will take up all of Leiter's wheat.

It is generally admitted the charge to Armour clears the atmosphere to a considerable extent and if trustees are necessary to liquidate the rest of Leiter's cash wheat in this city, New York, afloat and in European storehouses, it will not require much time to dispose of the remaining 3,000,000 bushels or more.

There will apparently be little difficulty in winding up the deal inasmuch as it is authoritatively stated that bins have been received for all cash wheat that Leiter has.

There is a fair prospect that Leiter's creditors will lose nothing and that the wheat will bring in sufficient with recovering markets to pay all claims.

An attachment for \$793,000 procured in New York by Lohrke, the grain exporter, against Joseph Leiter was served yesterday, but was released by Lohrke when the arrangement with Armour & Co. was completed.

Arrested on a Forgery Unarge.

CHICAGO, June 15.—Perry Lee Downs. alias Phil Davis, lieutenant colonel of the Blue and Gray Legion, has been arrested charged with forging three years ago railroad bonds to the value of \$280,000, on requisition papers from Governor Tanner and the governor of Maryland. Downs is a relative of General Fitzhugh Lee and Jefferson Davis. He was started to Baltimore.

Colonel Dyer Must Fight Another Suit.

WAS FILED BY THE HUSBAND

Who Says the Affections of the Partner of His Joys and Sorrows Were Alienated. The Defendant Is Well Known In This Place.

A sensational action which involves a man well known in East Liverpool was filed in Pittsburg yesterday.

Jared Comas, a Chicago merchant, entered the suit against Col. E. H. Dyer, of Pittsburg, for \$100,000 damages for the alienation of his wife's affections. The suit is a sequel to an action for breach of promise filed by Mrs. Comas in 1896 against Colonel Dyer. Mrs. Comas, it developed in the former case, had secured a divorce from her husband in former, and are fired with great rapidity. Chicago. The validity of this decree was questioned by Colonel Dyer in his defense to her suit. S. A. French, of Chicago, and Rody P. Marshall, of Pittsourg, are attorneys for the plaintiff.

ago, and lived happily, it is said, until a few years ago, when an estrangement began which resulted in a separation. Colonel Dyer is engaged in oil operations. It is charged that Mrs. Comas was known to have been engaged to be married to Colonel Dyer shortly after the separation from her husband.

Mrs. Comas applied for a divorce in the Cook county courts. This, it is stated, was granted, and the announcement of her engagement to Colonel Dyer was then construed to be bona fide. The breach of promise suit was finally compromised.

Colonel Dyer was president of the Specialty Glass company during a part of 1895, and is well known to a number of people in this city.

ELECTED OFFICERS.

The Mardi Coal Company Held Its Meeting.

The Mardi Coal & Mining Co., operating mines at Tabor, O., held a meeting yesterday afternoon when the following officers were elected:

President, George H. Owen; vice president, Thos. W. Morris; secretary-treasurer, Frank H. Croxall; manager, W. E. Boulton. J. H. Hilbert is the other member of the board of directors.

GONE TO TRENTON.

M. Manor Has Taken a New Position.

John M. Manor, manager of the Specialty Glass company, has gone to Trenton where he will have in charge the extensive flint plant of Golding & Sons. Mr. Manor was accompanied by M. E. Golding of this city.

Mr. and Mrs. Manor will reside in Trenton, but Mrs. Manor will remain here for ten days.

Pictures From Camp.

Chief Morley received two photographs from friends at Camp Alger.

The pictures consist of Privates Morley, Swingewood, Anderson, McKinney and Holloway standing in front of their tent, and one showing how the boys wash their heads and faces. They are very neat, and are placed in the glass case by the alarm board.

HOS.L.

Miss Mame Simms will entertain the Bachelor Girls at her home in Broadway tomorrow afternoon, Mrs. J. M. Manor being the guest of honor. The function will take the form of a garden party.

FIELD GUNS IN WAR.

THEY ARE THE FAVORITE WEAPONS AMONG MILITARY MEN.

These Long Range Death Dealers Can Be Fired With Great Rapidity, Are as Accurate as Rifles at Their Range and Exert Tremendous Energy.

The betterment of the modern field gun is fully equal to the development of other branches of military armament. It has been especially rapid within the last dozen years. The work of specialists and the results of extended tests have ended in the production of a weapon of great accuracy and of titanic force. The field gun of today is the favorite weapon of the military man, and he expects from it some very remarkable demonstrations when opportunity to use it occurs.

Napoleon is credited with the remark that Providence is always on the side of the heavy artillery, but the artillery which Napoleon knew was not worthy to be mentioned on the same day with the light, graceful and deadly arm with which the moderns are prepared to do slaughter. The first great step forward was taken when the breechloading action was invented. Well known scientific rules of boring and the improvement in projectiles and powders have done the rest. The field gun now in use by the powers is as accurate at its range as a rifle and has tremendous energy.

The United States has no better field guns than those with which the armies of Germany and France are armed, but they are every bit as good. Like our other ordnance, they are all made on this side of the water. The American manufacturer yields to no one in ability to make a perfect weapon. Indeed many of the chief improvements in field guns and in the larger sizes, sometimes called "siege" guns, are the products of American brains.

The field guns of the United States army are made at Watervliet, N. Y., just as the large guns for the navy and for coast defense are turned out at Washington. They have a caliber of a little more than three inches, are, of course, breechloading, are rather lengthy for their width and are lightly but strongly mounted. They use a pointed shell which explodes either on concussion or by time fuse, generally the

Each gun of a battery is in command of a lieutenant, who, under the eye of his superior, sights it and directs its working. He has his elevation, depression and wind gauge formulæ at his fingers' ends, and with him good shoot-Comas was married about 15 years ing is mainly a question of care. The powder used in these guns is of the smaller grained brown hexagonal kind, though the pheroidal is preferred for some calibers.

The recoil of this gun on level ground is 26 feet, with the wheels unlocked. With the wheels locked it recoils five feet, and is run forward and resighted very swiftly. Its point blank range is 2,200 yards. It can be made effective at a much greater distance, of course, but officers prefer that range for accurate

shooting. It fell to me some seven years ago to report the first field trial given the Watervliet guns. Three of them were sent to Fort Sam Houston at San Antonio, where Light Battery F, Third artillery, was stationed under command of Major James B. Burbank, a most capable officer, now attached to the staff of the governor of New York. Major Burbank was instructed to try them out thoroughly, and for this purpose selected an ideal range on Ganahl's ranch, 60 miles north of San Antonio.

The guns were planted in line and 20 feet apart on the side of a green hill and pointed across a shallow valley. On the opposite hill, 2,200 yards away, a tent fly was put up as a target. It was 15 by 9 feet in dimension and was stretched on two poles. At that distance it looked like nothing in the world so much as a man's pocket handkerchief. One shot was fired as a range finder and that shot proved the range was found. Then the work began.

For half an hour these guns pitched shells through or under or over the tar get, according to the firing directions, with as much accuracy as a man would use a Winchester rifle at 100 yards. The work was done with the precision of a clock. There was the rush of the piece into its first position, the quick command to load, the rapid aim and discharge, the faint scream of the shell, the puff of smoke and dull report as it struck and the dust rose up in a pillar.

When it was ended, we rode across the valley and up the opposite slope to the spot where the tent fly had stood. Bits of it lay about here and there. One of the poles was bitten short off. For 50 yards below the other pole, for 30 yards on either side of it and for 100 yards above it the earth was not plowed -it was harrowed. An ant could not have lived on the ground.

It was not difficult to imagine what would have become of an opposing force. Men and horses would have been dead and all guns dismounted in five minutes after the firing began. There could have en no better illustration of the abso-

unmanageable through heat, that the breech mechanism displayed no sign of ax!' strain, that the recoil was not greater than was calculated and that accuracy for these little blessings in disguise.

was as perfect with the last shell as with the first. These findings were reported to the Washington authorities, and the manufacture of the guns went on. The regular army is now thoroughly supplied with them. -Chicago Times-

THE MOHAMMEDANS.

The Queer Manner In Which They Mix Up Religion and Murder.

The month of Ramadan, in which the first part of the Koran is said to have been revealed, is observed as a fast by all Mohammedans. The fast extends over the whole "month of raging heat" and involves extraordinary self denial and self control. No food or drink of any kind may be taken from daybreak until the appearance of the stars at nightfall.

The rigor with which a Mohammedan observes this fast and the great gulf between its observance and obedience to the moral code are both illustrated by a story told in the life of one of the heroes of India, Major John Nicholson.

While Nicholson in 1854 was deputy commissioner in Bannu, a native killed his brother and was arrested. He was brought before Nicholson on a very hot evening, looking parched and exhausted, for he had walked many miles, and it was the month of Ramadan.

"Why," exclaimed Nicholson, "is it possible that you have walked in fasting on a day like this?"

"Thank God," answered the Bannuchi, "I am a good faster."

"Why aid you kill your brother?" "I saw a fowl killed last night, and the sight of the blood put the devil in-

"He had chopped up his brother, stood a long chase and been marched in here, but he was keeping the fast," wrote the commissioner to a friend, that styles, at great saving prices. he might know what sort of bloodthirsty and bigoted people he, Nicholson, had to govern.

One day a wretched little child was brought before the commissioner. He had been ordered by his relatives of the Waziri tribe to poison food.

'Don't you know it is wrong to kill people?" asked Nicholson.

"I know it is wrong to kill with a colors, for 19c. knife or a sword," answered the child. "Why?"

"Because the blood leaves marks," answered the trained poisoner.

A Pathan chief, who fell by Nicholson's side in a skirmish, left a little son, upon whom the English officer lavished care and attention. One day the 7-yearold boy asked his protector to grant him a special favor. "Tell me first what you want."

"Only your permission, sahib, to go crash Skirts. your and my deadly enemy, my uncle, Faltri Khan."

"To kill your cousins?" exclaimed the Englishman, horrified at the answer. "Yes, sahib, to kill all the boys while

they are young. It is quite easy now." "You little menster! Would you murder your own cousins?"

"Yes, sahib, for if I don't they will certainly murder me."

The little boy wished to follow Pathan usage and thought it very hard that his guardian should prevent his taking so simple a precaution.

DID THE GIRLS PAINT?

How the Question Was Decided and Bet Paid.

Two well known society swells went to the Imperial theater one afternoon when "East Lynne" was the bill. A few evenings before there had been discussed at their club the subject of women painting their faces. Several girls were mentioned who were suspected by their admirers of wearing an artificial carnation bloom. Others defended the young damsels and said it was natural.

How to find out and win a wager that was laid then and there was the subject of the young men's visit to the

"East Lynne" is a play which ought to make all women cry, they reasoned, for it makes even men's throats grow thick. They sent tickets for reserved seats to the girls under discussion, begging them to invite whomsoever they pleased of their acquaintances, as they, the donors, would not be able to escort

The ruse was successful. In an upper box sat the young men ready to win or lose the wager, and right below, in the parquet, where they could see their faces and every move of their hands, were the young women. There were six of them, two of whom shed copious tears and hesitated not to wipe them away with their handkerchiefs, while the other four never winced. Among those who did not cry were the girls suspected of laying on the red pigment, and it was on just that evidence that the bet hinged. That night the wager was paid with a supper at the University club. -St. Louis Repub-

was as perfect with the last shell as with the first. These findings were reported to the Washington authorities, and the manufacture of the guns went on. The regular army is now thoroughly supplied with them. - Chicago Times-

THE MOHAMMEDANS.

The Queer Manner In Which They Mix Up Religion and Murder.

The month of Ramadan, in which the first part of the Koran is said to have been revealed, is observed as a fast by all Mohammedans. The fast extends over the whole "month of raging heat" and involves extraordinary self denial and self control. No food or drink of any kind may be taken from daybreak until the appearance of the stars at

The rigor with which a Mohammedan observes this fast and the great gulf between its observance and obedience to the moral code are both illustrated by a story told in the life of one of the heroes of India, Major John Nicholson.

While Nicholson in 1854 was deputy commissioner in Baunu, a native killed his brother and was arrested. He was brought before Nicholson on a very hot evening, looking parched and exhausted, for he had walked many miles, and it was the month of Ramadan.

"Why," exclaimed Nicholson, "is it possible that you have walked in fasting on a day like this?"

"Thank God," answered the Bannuchi, "I am a good faster."

'Why aid you kill your brother?" "I saw a fowl killed last night, and the sight of the blood put the devil into me."

"He had chopped up his brother, stood a long chase and been marched in here, but he was keeping the fast,' wrote the commissioner to a friend, that he might know what sort of bloodthirsty and bigoted people he, Nichol son, had to govern.

One day a wretched little child was brought before the commissioner. He had been ordered by his relatives of the Waziri tribe to poison food.

'Don't you know it is wrong to kill people?" asked Nicholson.

"I know it is wrong to kill with a knife or a sword," answered the child. "Why?"

"Because the blood leaves marks," answered the trained poisoner.

A Pathan chief, who fell by Nicholson's side in a skirmish, left a little son, upon whom the English officer lavished care and attention. One day the 7-yearold boy asked his protector to grant him a special favor.

"Tell me first what you want." "Only your permission, sahib, to go and kill my cousins, the children of your and my deadly enemy, my uncle,

Faltri Khan." "To kill your cousins?" exclaimed the \$2.25, for \$1.49. Englishman, horrified at the answer. "Yes, sahib, to kill all the boys while

they are young. It is quite easy now." "You little menster! Would you murder your own cousins?"

"Yes, sahib, for if I don't they will certainly murder me."

The little boy wished to follow Pathan usage and thought it very hard that his guardian should prevent his taking so simple a precaution.

DID THE GIRLS PAINT?

How the Question Was Decided and s Bet Paid.

Two well known society swells went to the Imperial theater one afternoon when "East Lynne" was the bill. A few evenings before there had been discussed at their club the subject of women painting their faces. Several girls were mentioned who were suspected by their admirers of wearing an artificial carnation bloom. Others defended the young damsels and said it was natural.

How to find out and win a wager that was laid then and there was the subject of the young men's visit to the Imperial.

"East Lynne" is a play which ought to make all women cry, they reasoned, for it makes even men's throats grow thick. They sent tickets for reserved seats to the girls under discussion, begging them to invite whomsoever they pleased of their acquaintances, as they, the donors, would not be able to escort

The ruse was successful. In an upper box sat the young men ready to win or lose the wager, and right below, in the parquet, where they could see their faces and every move of their hands, were the young women. There were six of them, two of whom shed copious tears and hesitated not to wipe them away with their handkerchiefs, while the other four never winced. Among those who did not cry were the girls suspected of laying on the red pigment, and it was on just that evidence that the bet hinged. That night the wager was paid with a supper at the University club. -St. Louis Repub-

CANNON WILL BOOM

From Early Morn Until the Powder Gives Out-Arrangements For the Procession-Big Celebration Anticipated. All the News.

The celebration meeting was as usual well attended last evening, and a great deal of business was transacted without much unnecessary conversation. All who were present seemed to know they were there for a purpose.

It was decided that the parade should be composed of delegations and exhibits from all the factories and works in town, displays from the business houses, the public schools and civic societies. It will start promptly at 8 o'clock, and will doubtless be an imposing column.

The cannon will begin firing at 5 o'clock, and the arrangements provide for a salute lasting an hour, but it is probable this particular part of the celebration will be prolonged until the powder gives out.

The road race will start when the contestants and the bicycle club decide. which will likely be at 7 o'clock. Other sports will be a 100 yard foot race. wheelbarrow race and climbing a greased pole. The baloon ascension and two ball games will complete the list. Mr. Kinkaid will make the ascension provided he is given material for a new balloon.

Lieutenant Governor Jones, of Youngstown; Colonel Arnett, Wheeling; Hon. James Rice, Canton; Hon. Elijah Roberts, Warren, are the invited guests. Judge Smith will be chairman of the reception committee, which will be composed of all the lawyers in town.

Three bands will be secured if possi-

Julius Goetz was appointed chairman of the soliciting committee, to be made up of two residents of each ward and a number of other persons. The other chairmen are as follows: Arrangements, C. V. Shoub; music, H. H. Witaker; fireworks, Chief Lounds.

The next meeting will be held next Friday evening.

Her Birthday.

Yesterday was Miss Harriet Jones' tenth birthday, and 17 of her little friends were present by invitation to help her celebrate from 2 until 5 o'clock. Many beautiful presents were received and refreshments were served. The little lady is a daughter of George Jones, of Commerce street.

We Lead, Let Those Who Can Follow.

Pain and Payn.

Barry Pain relates that he once sent the late James Payn a series of parodies for Cornhill. Payn accepted them, but there was a difficulty. One of them was a parody of an author, X., who was a personal friend of Payn's and a very sensitive man, who would not take the sincerest form of flattery in the spirit in which it was offered. Now, it happens that there is a considerable resemblance between the style of X. and that of another author of the same school, Y. Payn suggested that Pain should take out X.'s name from the title of the parody and substitute that of the school of fiction to which he belonged. "Then," he said, "X. will think that it's meant for Y.

"But," Pain asked, "what about Y.?" "That's all right," he answered. "Y. will know that it's meant for X."

A Haunted Railroad Car.

Every one has heard of haunted houses, but the railroad men know there are haunted cars as well. For instance, on the L. and N. there is a caboose known as "1908" which carries on in the most supernatural manner. What do you say to a caboose that suddenly begins to shake and shiver like a man with the ague, and this, too, when it is standing alone on the track? My informant solemnly asserted also that "1908" is subject to attacks of hysteria. It jumps up and down without the slightest provocation. He says it did the most remarkable thing, however, one day near Richmond. It was standing on a siding with all brakes set. All at once it started and ran up grade, over an embankment into a field.—Paris (Ky.) Reporter.

EAST LIVERPOOL, O., WEDNESDAY, JUNE 15.

"REMEMBER THE MAINE."

Even the well informed war critics are not now talking so much about delay

THE man nominated at Alliance today will make a good congressman. He has proved it through almost two terms.

AMERICANS, it is said, will build a railroad in China through a part of the country inhabited by 90,000,000 souls. If those people have money that road bids fair to do business without the aid of a receiver.

THE weather bureau and the postal department are active. One has issued a report dealing with the climate of Cuba, and the other has selected its man for the postoffice at Manila. That is something like real American enterprise.

Now see if some of those Kansas Populists who made money from Republican prosperity and hate bonds, will not gobble up a few million of the first issue, provided they can get them. Those fellows talk a great deal, but never seem weary of turning an honest penny, it matters not how much the method is against their chosen principles.

THE German editors who say such mean things of the American people could show their love for Spain much better by enlisting under the yellow and red, "orange and crimson" they call it. But perhaps they are long range fighters, and would rather abuse Uncle Sam when they know he is busily engaged something like 4,000 miles away.

THE END OF THE WAR.

High officials who are quoted as being close to the president are predicting a long campaign in Cuba, and base their predictions upon arguments which seem to have impressed the correspondents at least.

A campaign that will last until the first of next year has already been as published in another column were mapped out, and only the complete sur- read. The street commissoner reported render of Spain will bring peace before that time. The administration knows that military movements are necessarily slow in a country like Cuba, and perhaps two months will elapse before the fleet in Santiago is captured or destroyed and the army has occupied Porto Rico. Then will come the more difficult plained that claims committee did not task of taking Havana. The government does not believe all it hears of the condition of affairs at the capital. General Blanco has not been idle. New fortifications have sprung up along the coast, and the land defenses have been materially strengthened. The army is being improved, and, unlike the people of Spain, in a measure realizes what it will be brought to face in Americans. Only after Havana has fallen and the Spaniards captured or driven into the sea can there be much hope of peace. Then will come the long negotiations, thousands of volunteer soldiers being needed in the captured territory to protect the new government until the papers are signed.

Thus it can be seen that nothing short of a miracle will end the war in a few

Heeded His Parents.

Pete Fullmer went to Liverpool this morning. It is understood that Pete wanted to enlist in the regiment being Tribune.

Mr. Peach and Mr. Olnhausen the Principals.

PERSONALITIES ALLOWED

Improvements Were Discussed-Lisbon Street to Be Paved.

Council was called to order last evening at 8:25 with all members present.

The minutes were read and approved, and a petition from citizens of Ohio avenue East End asked for an electric light was referred to the light committee.

A petition from property owners of Rural lane asked that it be paved from West Market to Jackson street. They agreed to waive advertising and pay for it in advance provided it did not cost over 12 cents per yard. The petition was received and the request granted and the engineer instructed to prepare a resolution.

The report of the road committee stated that macadamizing cost \$3,000 per mile, and about \$200 a mile per year to keep in good condition. Mr. Peach said the estimate was obtained at Martin's Ferry, and from the auditor at Barnesville, who said the average road cost \$4,000 to \$7,000. The report was received and placed on file. The committee was discharged.

Mr. Stewart said his committee had examined the cellars in Ravine street and had found them full of water. The committee had authorized the fire department to pump out the water. It was done, but the cellars filled again, and the committee wanted further ad-

Mr. George thought the cellars filled from springs on the east side of Ravine street, and as they were on private property it was a question as to the city's liability. He suggested as a remedy the building of a sanitary sewer along the street and a drain from the springs.

The matter was discussed at length, President Marshall finally remarking that it was strange council could not reach some agreement. Mr. Peach asked if these houses could not be connected with a drain sewer in Ravine street, Mr. Stewart replying it would do no good. Mr. Olnhausen said if the people had enough energy to put in a ditch he would guarantee to take away the water. President Marshall again thought the matter annoying to the people and council. Mr. Stewart moved that a ditch be dug from the southside of the property of Mr. Ivers to connect with the drain sewer, but nobody seconded the motion. The discussion continued for half an hour. Finally the people were granted privilege to connect with the drain sewer, and the city will furnish the pipe. All voted yes on the motion but Messrs. Stewart, Seckerson and Olnhausen, and Mr. Marshall remarked "that if we can strike something else like this we will be here until 3 o'clock."

Mr. Ivers, who was present, remarked that he didn't propose to dig "no dreen" and wanted his cellar as it was before the hole on Ravine street was filled.

The report of the mayor and treasurer general work, while Fire Chief Morley reported the following runs: Patrol 57, fire 11, ambulance 11, prisoners conveyed to the city jail 52.

The bill of Charles Irwin for \$6.75 was discussed by council when the pay ordinance was read. Mr. Olnhausen exthink it was right to pay prisoners for work. Mr. Challis asked if the city proposed to hire a janitor. Mr. Stewart moved the bill be placed on the pay roll and it was seconded by Messrs. Ashbaugh and Cain. Mr. Olnhausen objected at once, and Chief Johnson explained that \$2.15 of the \$6.75 went to the city and the balance made up the costs of the mayor and marshal.

Mr. Ashbaugh was in favor of paying the bill. Mr. Peach said council paid the marshal 371/2 cents a day for meals, and when it was figured out the city was in debt, and council had no assurance that all the bums in the city would not be run in for the privilege of being janitor. In his opinion a legitimate janitor should be engaged. A vote was taken and the motion carried, Mr. Peach not voting. He stated that no more bills like this would be allowed. Mr. Stewart asked what could be done with a man who could not pay his fine, but got no

on the north side of the street. Mr. Challis spoke in favor of the resolution and it was referred to street committee.

A resolution to improve Basil avenue from West Market street to Lincoln avenue by grading and paving the roadway, was placed on its first reading, were resolutions to improve Spring street and Woodlawn avenue from Lincoln avenue to West Market street. Mr. Stewart thought it would President Marshall Gave the Order Several | be wise to pave the streets. The resolu-Times-Ravine Street Cellars and Road tions were referred to street committee after some discussion. The engineer was instructed to draw up an ordinance to pave Apple alley from Robinson to Kossuth street.

Mr. Stewart said the committee appointed to look after an additional cell and safes for the city's papers had seen a contractor, who said he would submit

Mr. Cain moved that the salary of the two firemen who draw \$45 a month be increased to \$50 per month, but President Marshall explained that it would be necessary to introduce an ordinance, and the matter was dropped.

Mr. Olnhausen called attention to a dangerous platform in Jethro street in front of F. L. Fisher's place, and said he thought a street commissioner who would do work of that kind should not hold his position. Mr. Bryan denied laying the platform and Mr. Olnhausen moved the obstruction be removed. Mr. Peach thought it would be unjust to remove the obstacle and said he had never heard as lame an excuse as that set forth by Mr. Olnhausen to satisfy a little personality.

Mr. Olnhausen looked angry and told Mr. Peach to "cut it short," while President Marshall told the gentlemen not to indulge in personalities. Mr. Olnhausen said he was trying to save the city, and did not care a snap for the Mr. Fisher or the Fourth ward. He thought Mr. Fisher should be driven out of the city and the councilman who would back him should resign.

Mr. Peach jumped to his feet, and President Marshall told them to refrain from anything personal, but Mr. Peach asked permission to reply to the last remark of Mr. Olnhausen. Mr. Marshall would not grant the required permission, and Mr. Peach said that Mr. Fisher had been grossly misrepresented.

The motion to remove the obstruction was put, and Mr. Stewart said Mr. Olnhausen said it was unsafe and Mr. Peach said it was safe.

The motion was carried, and Mr. each remarked it was the most outrageous action council over took, as Mr. Olnhausen had buttonholed Seckerson, Challis and Stewart in his presence.

Mr. Fisher was granted permission to put up steps if they were safe.

The mayor was instructed to hire a

janitor at the rate of \$8 per month. Mr. Peach as chairman of the committee on roads submitted a plan of improvement. It shows a 15 foot roadway. 10 teet of brick backed with 21/2 inch plank, and 21/2 feet of broken stone with of a foundation of 12 inches of sand and 18 inches gravel, leaving a dirt road of 15 feet. It was moved this be adopted as the plan for improving all roads leading out of the city. The estimate of the cost for improving roads this way is between \$5,000 and \$6,000 per mile. The motion carried.

A resolution declaring it necessary to improve Lisbon street from Eighth street to the corporate limits in accordance with the above plans, was passed.

The engineer was instructed to narrow Lisbon street from 40 to 30 feet between lot 813 to the corporate limits, Mr. Stewart voting no on the motion.

The solicitor was instructed to tell council at the next meeting how far he has advanced in the condemnation of property along Tanyard run.

RELIC OF THE MAINE.

It Is a Piece of Oilskin That Covered the searchlight.

Miss Agnes Swan, of Sixth street, has in her possession a valuable piece of oilskin which she received yesterday in a letter. It is a piece of the oilskin used to cover the big searchlight of the Maine when it was not in use.

The relic was sent to Miss Swan by a friend who is now on the New York. He was a member of the Pennsylvania naval reserves, but when the war broke out was assigned to duty on the St. Paul with Captain Sibsbee, afterward being transferred.

Lost a Boat.

Physical Director Morris, of the Young Men's Christian association, is now trying to secure a boat that can be used by the association as an outing craft. Last week a coal dealer intended to present the association with one, but the day before this was to be done the boat was stolen.

EAST LIVERPOOL, O., WEDNESDAY, JUNE 15.

Even the well informed war critics are not now talking so much about delay

THE man nominated at Alliance today will make a good congressman. He has proved it through almost two terms.

AMERICANS, it is said, will build a railroad in China through a part of the country inhabited by 90,000,000 souls. If those people have money that road bids fair to do business without the aid of a receiver.

THE weather bureau and the postal department are active. One has issued a report dealing with the climate of Cuba, and the other has selected its man for the postoffice at Manila. That is something like real American enterprise.

Now see if some of those Kansas Populists who made money from Republican prosperity and hate bonds, will not gobble up a few million of the first issue, provided they can get them. Those fellows talk a great deal, but never seem weary of turning an honest penny, it matters not how much the method is against their chosen principles.

THE German editors who say such mean things of the American people could show their love for Spain much better by enlisting under the yellow and red, "orange and crimson" they call it. But perhaps they are long range fighters, and would rather abuse Uncle Sam when they know he is busily engaged something like 4,000 miles away.

THE END OF THE WAR.

High officials who are quoted as being close to the president are predicting a long campaign in Cuba, and base their predictions upon arguments which seem to have impressed the correspondents at least.

A campaign that will last until the first of next year has already been mapped out, and only the complete surrender of Spain will bring peace before that time. The administration knows that military movements are necessarily slow in a country like Cuba, and perhaps two months will elapse before the fleet in Santiago is captured or destroyed and the army has occupied Porto Rico. Then will come the more difficult task of taking Havana. The government does not believe all it hears of the condition of affairs at the capital. General Blanco has not been idle. New fortifications have sprung up along the coast, and the land defenses have been materially strengthened. The army is being improved, and, unlike the people of Spain, in a measure realizes what it will be brought to face in Americans. Only after Havana has fallen and the Spaniards captured or driven into the sea can there be much hope of peace. Then will come the long negotiations, thousands of volunteer soldiers being needed in the captured territory to protect the new government until the papers are signed.

Thus it can be seen that nothing short of a miracle will end the war in a few

A BREEZE IN COUNCIL

Mr. Peach and Mr. Olnhausen the Principals.

ALLOWED PERSONALITIES

President Marshall Gave the Order Several Times-Ravine Street Cellars and Road Improvements Were Discussed-Lisbon Street to Be Paved.

Council was called to order last evening at 8:25 with all members present.

The minutes were read and approved, and a petition from citizens of Ohio avenue East End asked for an electric light was referred to the light com-

A petition from property owners of Rural lane asked that it be paved from West Market to Jackson street. They agreed to waive advertising and pay for it in advance provided it did not cost over 12 cents per yard. The petition was received and the request granted and the engineer instructed to prepare a resolution.

The report of the road committee stated that macadamizing cost \$3,000 per mile, and about \$200 a mile per year to keep in good condition. Mr. Peach said the estimate was obtained at Martin's Ferry, and from the auditor at Barnesville, who said the average road cost \$4,000 to \$7,000. The report was received and placed on file. The committee was discharged.

Mr. Stewart said his committee had examined the cellars in Ravine street and had found them full of water. The committee had authorized the fire department to pump out the water. It was done, but the cellars filled again, and the committee wanted further ad-

Mr. George thought the cellars filled from springs on the east side of Ravine street, and as they were on private property it was a question as to the city's liability. He suggested as a remedy the building of a sanitary sewer along the street and a drain from the springs.

The matter was discussed at length, President Marshall finally remarking that it was strange council could not reach some agreement. Mr. Peach asked if these houses could not be connected with a drain sewer in Ravine street, Mr. Stewart replying it would do no good. Mr. Olnhausen said if the people had enough energy to put in a ditch he would guarantee to take away the water. President Marshall again thought the matter annoying to the people and council. Mr. Stewart moved that a ditch be dug from the southside of the property of Mr. Ivers to connect with the drain sewer, but nobody seconded the motion. The discussion continued for half an hour. Finally the people were granted privilege to connect with the drain sewer, and the city will furnish the pipe. All voted yes on the motion but Messrs. Stewart, Seckerson and Olnhausen, and Mr. Marshall remarked "that if we can strike something else like this we will be here until 3 o'clock."

Mr. Ivers, who was present, remarked that he didn't propose to dig "no dreen" and wanted his cellar as it was before the hole on Ravine street was filled.

The report of the mayor and treasurer as published in another column were read. The street commissoner reported general work, while Fire Chief Morley reported the following runs: Patrol 57, fire 11, ambulance 11, prisoners conveyed to the city jail 52.

The bill of Charles Irwin for \$6.75 was discussed by council when the pay ordinance was read. Mr. Olnhausen explained that claims committee did not think it was right to pay prisoners for work. Mr. Challis asked if the city proposed to hire a janitor. Mr. Stewart moved the bill be placed on the pay roll and it was seconded by Messrs. Ashbaugh and Cain. Mr. Olnhausen objected at once, and Chief Johnson explained that \$2.15 of the \$6.75 went to the city and the balance made up the costs of the mayor and marshal.

Mr. Ashbaugh was in favor of paying the bill. Mr. Peach said council paid the marshal 371/2 cents a day for meals, and when it was figured out the city was in debt, and council had no assurance that all the bums in the city would not be run in for the privilege of being janitor. In his opinion a legitimate janitor should be engaged. A vote was taken and the motion carried, Mr. Peach not voting. He stated that no more bills like this would be allowed. Mr. Stewart asked what could be done with a man who could not pay his fine, but got no response.

A resolution was road declaring it formed there, but heeding the wish of necessary to improve Bank street from his parents, will not do so.—Toronto Avondale street to the east end of Baull suits are the best values ever offered. street by grading and laying sidewalks

on the north side of the street. Mr. Challis speke in favor of the resolution and it was referred to street committee.

A resolution to improve Basil avenue from West Market street to Lincoln avenue by grading and paving the roadway, was placed on its first reading, as were resolutions to improve Spring street and Woodlawn avenue from Lincoln avenue to . West Market street. Mr. Stewart thought it would be wise to pave the streets. The resolutions were referred to street committee after some discussion. The engineer was instructed to draw up an ordinance to pave Apple alley from Robinson to Kossuth street.

Mr. Stewart said the committee appointed to look after an additional cell and safes for the city's papers had seen a contractor, who said he would submit

Mr. Cain moved that the salary of the two firemen who draw \$45 a month be increased to \$50 per month, but President Marshall explained that it would be necessary to introduce an ordinance, and the matter was dropped.

Mr. Olnhausen called attention to a dangerous platform in Jethro street in front of F. L. Fisher's place, and said he thought a street commissioner who would do work of that kind should not hold his position. Mr. Bryan denied laying the platform and Mr. Olnhausen moved the obstruction be removed. Mr. Peach thought it would be unjust to remove the obstacle and said he had never heard as lame an excuse as that set forth by Mr. Olnhausen to satisfy a little personality.

Mr. Olnhausen looked angry and told Mr. Peach to "cut it short," while President Marshall told the gentlemen not to indulge in personalities. Mr. Olnhausen said he was trying to save the city, and did not care a snap for the Mr. Fisher or the Fourth ward. He thought Mr. Fisher should be driven out of the city and the councilman who would back him should resign.

Mr. Peach jumped to his feet, and President Marshall told them to refrain from anything personal, but Mr. Peach asked permission to reply to the last remark of Mr. Olnhausen. Mr. Marshall would not grant the required permission, and Mr. Peach said that Mr. Fisher had been grossly misrepresented.

There was more cheering when the gentleman finished his speech, and Judge Johnston was called. He said he defeat now was not going to make him forget the principles of the party. He didn't care anything about Hawaii, but do his duty as a Republican.

The judge spoke for 10 minutes, and when he had retired amid applause Mr. Cameron moved the congressional committee be instructed to select the time

carried and the convention adjourned.

A LOCK WAS BROKEN

So Mayor Bough Could Not See All the Prisoners.

TWO MEN FINED FOR FIGHTING

Warrants Served In Connection With the Duby Matter-Fred Ammon Called In BARGAIN 1: Order That He Might Recover His

Mayor Bough this morning could not dispose of all the cases that were on the charge slips because one of the locks on the cells was broken.

Some of the warrants issued yesterday for the arrest of those who were implicated in the fight at the Duby Saturday night were served, and as a result Joe Green and Will Farrish have been arrested. Green was captured by Officer Grim and Farrish was charged to McMillan. Both men pleaded guilty to the charge and were fined \$6.60 each. They paid and were released.

When the patrol was returning from East End yesterday afternoon Frank Leech was seen near the Harker pottery in an intoxicated condition. Fearing that the man might be killed on the railroad, Officer McCullouch loaded him in the wagon and took him to jail. He is an old soldier, and lives in a small hamlet near Economy. He came to town yesterday to ascertain some matters about his pension, and in the mean time drank too much fire water.

Fred Bloor was sleeping off a jag in the lower part of town early this morning when Officer White saw him. Thinking that not the right place to slumber he was taken to city hall. This afternoon he was fined.

Fred Ammon this morning called at city hall and claimed a watch that was left there by a small boy who said he had found it in West End. The watch was taken from the kiln shed at the Brunt porcelain works Monday, and is valued at \$75. There has been no prosecution, but the thief has been found to be a 9-year-old boy.

THE WELLSVILLE ROAD.

Is an Elephant Commissioners do Not

Commissioners Bowman, French and Bye were in town today having inspected the work on the West End trestle, the culvert at Rough's run and the Wellsville road. They are pleased with the progress made.

"The one white elephant we have on our hands is the Wellsville road," said Mr. French. "The original intention was to macadamize the road, a little every year, taking the worst parts first. We hoped about half a mile could be finished each year, but it does not look much like that just now. Some people are inclined to grumble at the street railway company but we do not look at it in that light at all. The line is of vast importance to Liverpool and Wellsville, and if the road became so bad that teams would have to take the hill route even that would be preferable to shutting down the street railway. The worst part of the road is the mile beginning at Brady's and a mile on the East Liverpool side. It is indeed a puzzle what to do with it, but something will doubtless soon be done."

TWO MEN WENT DOWN

When a Rope Broke at the East End Mill.

WAS BADLY HURT SNOWDEN

He Fell on the Brick Pavement, Striking His Head In Such a Manner as to Cause What May Prove a Fatal Injury-They Were Raising a Beam.

George O. Snowden and Calvin Mayer were seriously injured at the ruins of the Potters' Mining & Milling company's plant in East End yesterday afternoon. This morning Snowden was in a dangerous condition, but Mayer was only slightly hurt.

The men were engaged in raising a heavy beam 15 feet long and 15x12 inches. Snowden stood on the corner of the building, perhaps 15 feet from the ground, while Mayer stood on a ladder. The beam had been raised almost to the required height and Snowden had caught it to swing it into position when the rope broke. The beam fell, and Snowden went down with it, alighting on his head on a pile of bricks. Mayer also fell, but escaped serious injury, his shoulder and side alone being

News of the accident quickly spread and a crowd gathered, Doctor Marshall and Doctor Calhoun being among the number. Snowden was found to be badly injured, the top of his head being crushed in where he had struck the bricks. The patrol was summoned and he was taken to his home in Ohio street where he was given every attention. Meyer, who lives at the upper end of St. George street, was also taken home. Both men were unconscious and it was rumored in the city they had been

Snowden was unconscious all of last night, and it was believed he could not recover. He has a wife and five children, the youngest being an infant only a few weeks old.

GONE TO ALLIANCE.

Delegates Are Attending the Republican Convention.

The following persons left this morning for Alliance where they attended the Republican congressional conven-

Messrs. Herbert, Macrum, McDonald, Powell, Logan, Nellis, Owens, Thomas, Blake, McCoy, Eardley and Arbuckle.

E. E. Birch, of Calcutta, was the only one who attended the convention from that place.

CITY'S FINANCES.

Some Funds Are More or Less Over-

The report which Treasurer Herbert made to council last night showed the general fund to be overdrawn \$1700.08, street \$135.76, fire \$430.40.

Balances in the other funds are as follows: Wharf \$14.57, police \$643.26, interest \$1687.28, sanitary \$224.73, sinking \$3977.47, light \$805.51, bridge \$862.19.

The New Boat.

Captain Dana Scott's new Louisville and Pittsburg packet that is being built at Marietta, will be ready for business early in the fall.

The City of New Orleans, from which were taken the boilers for the new boat, will be taken to Pittsburg and used as a wharf boat for the new line. It is said the Lorena will also use the same wharf boat.

Some Good Business.

A goodly amount of business was handled at the freight depot yesterday, and during the day about 15 cars were loaded and sent out. Western shipments are increasing and the business for the month will, it is expected, be larger than it was the same month last year.

Delaying Work.

The carpenters who have been improving the platform at the passenger station were unable to work today. No lumber was sent from Wellsville, and that is the cause of the delay. The platform will not now be completed until Saturday.

Moving to Michigan.

George Demerling, of Wellsville, will during the next two weeks move his effects to Travis City, Mich. Last season he was a member of the opera house orchestra.

Values such as our \$5.75 and \$9,75 men's spring suits represent are not an every day occurance. You had better

CAWDOR CASTLE.

How Macbeth, Who Founded It, Happened to Select Its Site.

The late Earl of Cawdor was the owner of two charming residences in Wales-Stackpole Court, Pen brokeshire, where he died, and Golden Grove, Carmarthenshire-but these were mere pleasure houses by comparison with the ancestral home of the Campbells, Cawdor castle at Nairn. This fine north British dwelling remained almost undisturbed from the death of Sir Hugh Campbell in 1716 for a period of nearly 150 years, when it was conscientiously restored by its late owner. Cawdor castle itself had its rise in a fierce and wild age, around which traditions of a hazy nature cluster. It is a legend in Nairn that the murder by Macbeth was committed in an old chamber of the castle tower, and visitors wishing to conduct themselves with gravity and respectful reverence are expected to receive this story with an expression of solemnity not untinged with awe. That the "silver skin" of King Duncan was "laced with

be enlarged upon. Cawdor castle by its outward aspect is, however, strongly suggestive in its gaunt and minatory massiveness of the fierce and troublous times of the ambitious Macbeth. The story goes that the thane who founded it was much concerned about the choice of an abode and was warned in a dream to place his worldly wealth in a coffer and to bind it upon the back of an ass and wherever the animal should halt to set about his work. The ass "came to a sandstill at the russetburn at the third hawthorn from the starting point" and lay down. Curiously enough, as if to confirm this tradition, to this day in the dungeon beneath the tower a hawthorn grows. The other two trees have disappeared, the last one as lately as the later history of Cawdor castle, which came to be left untenanted for long years owing to the Campbells departing for Wales, where they married young ladies with ample fortunes .-St. James Gazette.

apartment is a fable that need not now

WHERE THE JOKE CAME IN.

The Boys Hauled the Professor Back, Much to Their Chagrin.

A very good story is told of the head of a college who was the possessor of a which was produced through experivery clumsy, old fashioned vehicle to ments made by Professor Dewar and Sir which he was very partial and which Frederick Abel. Cordite is composed of he constantly used in riding through the nitroglycerin 58 per cent, gun cotton 37 streets of the town, to the disgust of per cent and vaseline 5 per cent Nitromost of the students.

the boys that on a certain night they ing a quantity of sulphuric acid with would remove this offensive vehicle almost double the amount of nitric acid Fourth of July or vacation trip and a from the coachhouse to a wood about and allowing it to cool. About onehalf a mile from the college. Their in- eighth of the total weight of glycerin is tention was to run the carriage into the then added gradually, the mixture bethickest of the woods and underbrush ing kept below a temperature of 70 deand leave it there.

But the principal by some means learned or suspected their intention.

Accordingly, in the evening, he quietly went out to the coachhouse, and, well wrapped up, crouched in a corner of the carriage and waited.

Soon the boys came, very stealthily, and, without looking into the vehicle, began their operations very quietly, and in whispers, and with many a "Hush" and "Take care" and "Look out," they succeeded in getting it out of the house and yard and into the road.

There they were all right, but they were puzzled to find the thing so heavy to haul, and amid grumblings and puffings and pantings, varied occasionally with a strong expression of disgust, they succeeded in reaching the woods, the principal listening to their complaints and rather enjoying the situation.

Having with some difficulty backed the carriage into the brush, they began to congratulate each other on the success of their maneuver. The old gentleman, letting down the window, to their utter surprise and alarm, very quietly

"Now, young gentlemen, just take me back very carefully, if you please." -Spare Moments.

She Will Teach Bonnet Making.

Mlle. Valentine About, daughter of Edmond About, the author, is going to open a "class in hat and bonnet making." Everybody in Paris is surprised at the necessity for it, as during his lifetime About kept open house in his hotel on the Rue de Donai, and a fete that he gave to the Authors' society in the chateau he had just bought at Pontoise is remembered as almost princely. By what reverse of fortune About's family were left destitute nobody seems to know. Although he himself began life humbly as the son of a grocer, his daughter was a brilliant young society after which it is dried. woman brought up in luxury, and everybody is admiring the courage with which she has undertaken to solve the difficult problem of the "struggle for life."-Boston Woman's Journal

Whitenead Torpedoes.

A Whitehead torpedo carries 220 pounds of wet gun cotton and weighs ready for service 1,160 pounds. Its maximum length is 16 feet 5 inches and its greatest diameter is 17.7 inches. At a speed of 28 knots per hour it has a range of about 850 yards. The torpedo Il 1,550 pounds per square then, winer

SMOKELESS POWDER.

CORDITE THE MOST POTENT EX-PLOSIVE OF MODERN TIMES.

It Is Composed of Nitroglycerin, Gun Cotton and Vaseline-The Interesting Process by Which Its Dangerous L'ements Are Combined.

Since the advent of the speedy torpedo boat and since rapid firing guns have been placed on battleships and cruisers an explosive that would allow to the officers and gunners an unobstructed view of an enemy under all conditions has been sought, and thousands of dollars have been expended in the effort to To Various Points via Pennsylobtain a satisfactory substitute for black gunpowder. Cordite, the latest explosive, is said to be the most satisfactory propellant of modern times for naval warfare, and the expert opinion seems to be that in a few years gunpowder as now understood will have vanished.

powder mills show that there was only one in operation in 1590, this one being his golden blood" in this particular in England. During the year 1887 the Waltham Abbey Powder mills were purchased by the English government. They are still conducted by it. The Faversham mills, which up to that date were the largest in the world, passed into the hands of a private corporation in 1815. The manufacture of powder was continued without much improvement, except in the efficiency of the grinding and mixing machinery, until about 35 years ago, the formula for black powder being saltpeter 75 parts, charcoal 15 parts and sulphur 10 parts, the whole forming a mechanical mixture and not a chemical compound.

Smokeless powder, however, became absolutely a necessity, for the reason that smoke producing powders masked the object aimed at, and the torpedo boat, which was becoming a recognized feature of naval warfare, could dash up 1836. Many stirring tales are told of and discharge one or more deadly missiles under cover of the smoke.

Smokeless powders were first produced in France, and for some time the secret of the manufacture was guarded jealously. As soon as the necessity for this kind of powder became apparent, however, a number of manufacturers devoted attention to it, and as a result various brands of smokeless explosives were placed on the market.

The most satisfactory results eventually made their appearance in cordite, glycerin is an oily, colorless liquid and A plan was formed among some of an active poison. It is produced by mixgrees F. by passing air and cold water through it. After the mixture has stood and the residue (nitroglycerin) is washed and filtered.

Nitroglycerin cannot be ignited easily by a flame, and a lighted match or taper plunged into it would be extinguished. It is sensitive to friction or percussion, either of which will detonate it. Another peculiarity is that the higher the temperature the more sensitive it becomes. It will solidify at a temperforce is estimated to be about twelve times that of gunpowder.

One of the most approved methods used in the manufacture of gun cotton is this: The raw cotton is torn into shreds, dried and dipped in a mixture of sulphuric and nitric acids. It is then placed in a stream of running water and washed thoroughly. The cotton is then wrung out, usually in a centrifugal ma-

It is afterward boiled, dried, cut into pulp and pressed into disks. When the gun cotton is finished, there should be no trace of the acids remaining. Vaseline, the other component part of cordite, is the well known extract from petroleum, and its usefulness is chiefly to lubricate the bore of the gun and thus lessen the friction between it and the projectile. It also has a tendency to impart a waterproof nature to cordite.

A colorless liquid prepared from acetate of lime, called acetone, is used as a solvent in the manufacture of cordite. The method of preparing the explosive is: The required proportion of nitroglycerin is poured over the gun cotton, and the two, with the addition of acetone, are kneaded together into a stiff paste. Vaseline is then added, and the whole compound, after being thoroughly mixed, is put into a machine and the cordite pressed out and cut into lengths,

To the artillerist the nature of cordite is represented by a fraction whose numerator gives in hundredths of an inch the diameter of the die through which the cordite has been pressed, its denominator being the length of the stick in inches. The cordite known as 30-12, which is the size used for the 6 inch quick firing guns, signifies that its diameter is three-tenths of an inch, and it is 12 inches long.

It is necessary to use a fine grain powder to ignite a charge of cordite, it being secured in such a manner that a is driven by compressed air at a pressure flash from the tube firing the gun will tause the explosion of the charge.

full charge of powder for a 12 inch gun is 295 pounds, while the cordite charge, having the same efficiency, is only 1671/2

pounds. Cordite is one of the safest explosives known, and is not dangerous unless it is confined. It can be held in the hand and lighted without danger. It burns slowly and with a bright flame. Al- Liverpool, to buy nothing but Union though comparatively a new discovery, it is used extensively in every navy throughout the world. It was manufactured first in Great Britain and was in general use on her battleships before adopted by other powers. - New York Sun

lanta Constitution. The South's Pride In Hobson.

Alabama is proud of her noble young son, who so signally illustrates his state and country in the very jaws of death. Hobson's deed of daring puts the south forward as nothing else could have done on the seas, for the civil war made it impossible for any of the older ranking naval officers in this war to be southern. He shows the sort of metal the south is giving the united country in this time of need. - Montgomery Advertiser.

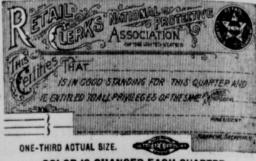

UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of East Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent work. ing hours, and union labor employed.

PATRONIZE UNION CLERKS.

All mambers of the R. C. N. P. A. can show this card, Ask for it when making your purchases. Endorsed by the A. F. of L.

COLOR IS CHANGED EACH QUARTER. Good only during months named in lower left hand corner and where roperly signed, and STAMPED with the number of the Local.

UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of WORKERS UNION all the branches of boot and shoe work-ers. The above trade-mark when found on the sole or

lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

BOOT & SHOE

CUSTOM TAILORS' LABEL.

found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS. This Label is

about an inch and a half square, and is printed on buff-colored paper. It is placed on every union made hat before it leaves the workman's hands. If a dealer takes a label from one hat and places it in another, or has any detached labels in his store, do not buy from him. as his labels may be counterfeit, and his hats may be the product

UNION MADE CLOTHES.

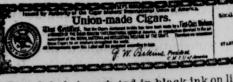

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants BICYCLE LABEL.

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by

buying and riding bicycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bor-dered by gold. The Label will

be placed on the upper front side of the tube that receives the seat post. BLUE LABEL CIGARS.

This label is printed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U.S. revenue label on the box, as the latter is nearly of a similar color. TOBACCO LABEL

The above Label, printed on blue paper, will be found on all plug tobacco and on the wrappers of chewing tobacco manufactured in union tobacco factories. UNION BREAD AND CRACKERS.

This is a full size factoring is a full size factoring is a full size factoring in the Bakers' and Confectioners' union. It is printed on fine white paper and is pasted on each loaf of unionmade bread. It is an evidence that the bread is made under fair and wholesome conditions, wholesome conditions,

and in clean and healthy bakeshops. Following is the confectioners' and cracker Label:

ERLANGER'S.

TWO MEN WENT DOWN

When a Rope Broke at the East End Mill.

SNOWDEN WAS BADLY HURT

He Fell on the Brick Pavement, Striking His Head In Such a Manner as to Cause What May Prove a Fatal Injury-They Were Raising a Beam.

George O. Snowden and Calvin Mayer were seriously injured at the ruins of the Potters' Mining & Milling company's plant in East End yesterday afternoon. This morning Snowden was in a dangerous condition, but Mayer was only slightly hurt.

The men were engaged in raising a heavy beam 15 feet long and 15x12 inches. Snowden stood on the corner of the building, perhaps 15 feet from the ground, while Mayer stood on a ladder. The beam had been raised almost to the required height and Snowden had caught it to swing it into position when the rope broke. The beam fell, and Snowden went down with it, alighting on his head on a pile of bricks. Mayer also fell, but escaped serious injury, his shoulder and side alone being hurt.

and a crowd gathered, Doctor Marshall and Doctor Calhoun being among the number. Snowden was found to be badly injured, the top of his head being crushed in where he had struck the bricks. The patrol was summoned and he was taken to his home in Ohio street where he was given every attention. Meyer, who lives at the upper end of St. George street, was also taken home. Both men were unconscious and it was rumored in the city they had been

Snowden was unconscious all of last night, and it was believed he could not recover. He has a wife and five children, the youngest being an infant only a few weeks old.

GONE TO ALLIANCE.

Delegates Are Attending the Republican Convention.

The following persons left this morning for Alliance where they attended the Republican congressional conven-

Messrs. Herbert, Macrum, McDonald, E. E. Birch, of Calcutta, was the only

one who attended the convention from that place.

CITY'S FINANCES.

Some Funds Are More or Less Over-

The report which Treasurer Herbert made to council last night showed the general fund to be overdrawn \$1700.08, street \$135.76, fire \$430.40.

Balances in the other funds are as follows: Wharf \$14.57, police \$643.26, interest \$1687.28, sanitary \$224.73, sinking \$3977.47, light \$805.51, bridge \$862.19.

The New Boat.

Captain Dana Scott's new Louisville and Pittsburg packet that is being built at Marietta, will be ready for business early in the fall.

The City of New Orleans, from which were taken the boilers for the new boat, will be taken to Pittsburg and used as a wharf boat for the new line. It is said the Lorena will also use the same wharf boat.

Some Good Business.

A goodly amount of business was handled at the freight depot yesterday, and during the day about 15 cars were loaded and sent out. Western shipments are increasing and the business for the month will, it is expected, be larger than it was the same month last year.

Delaying Work.

The carpenters who have been improving the platform at the passenger station were unable to work today. No lumber was sent from Wellsville, and that is the cause of the delay. The platform will not now be completed until Saturday.

Moving to Michigan.

George Demerling, of Wellsville, will during the next two weeks move his effects to Travis City, Mich. Last season he was a member of the opera house orchestra.

Values such as our \$5.75 and \$9,75 men's spring suits represent are not an every day occurance. You had better

CAWDOR CASTLE.

How Macbeth, Who Founded It, Happened to Select Its Site.

The late Earl of Cawdor was the owner of two charming residences in Wales-Stackpole Court, Pen brokeshire, where he died, and Golden Grove, Carmarthenshire-but these were mere pleasure houses by comparison with the ancestral home of the Campbells, Cawdor castle at Nairn. This fine north British dwelling remained almost undisturbed from the death of Sir Hugh Campbell in 1716 for a period of nearly 150 years, when it was conscientiously restored by its late owner. Cawdor castle itself had has been sought, and thousands of dolits rise in a fierce and wild age, around which traditions of a hazy nature cluster. It is a legend in Nairn that the murder by Macbeth was committed in an old chamber of the castle tower, and visitors wishing to conduct themselves with gravity and respectful reverence are expected to receive this story with an expression of solemnity not untinged with awe. That the "silver skin" of King Duncan was "laced with his golden blood" in this particular apartment is a fable that need not now be enlarged upon.

Cawdor castle by its outward aspect is, however, strongly suggestive in its gaunt and minatory massiveness of the flerce and troublous times of the ambitious Macbeth. The story goes that the thane who founded it was much concerned about the choice of an abode and was warned in a dream to place his worldly wealth in a coffer and to bind News of the accident quickly spread it upon the back of an ass and wherever the animal should halt to set about his work. The ass "came to a sandstill at the russetburn at the third hawthorn from the starting point" and lay down. Curiously enough, as if to the dungeon beneath the tower a hawthorn grows. The other two trees have disappeared, the last one as lately as 1836. Many stirring tales are told of the later history of Cawdor castle, which came to be left untenanted for long years owing to the Campbells departing for Wales, where they married young ladies with ample fortunes .-St. James Gazette.

WHERE THE JOKE CAME IN.

The Boys Hauled the Professor Back, Much to Their Chagrin.

A very good story is told of the head of a college who was the possessor of a very clumsy, old fashioned vehicle to which he was very partial and which he constantly used in riding through the nitroglycerin 58 per cent, gun cotton 37 streets of the town, to the disgust of per cent and vaseline 5 per cent Nitromost of the students.

the boys that on a certain night they ing a quantity of sulphuric acid with would remove this offensive vehicle almost double the amount of nitric acid Powell, Logan, Nellis, Owens, Thomas, from the coachhouse to a wood about and allowing it to cool. About one-Blake, McCoy, Eardley and Arbuckle. half a mile from the college. Their in- eighth of the total weight of glycerin is tention was to run the carriage into the thickest of the woods and underbrush and leave it there.

But the principal by some means learned or suspected their intention.

Accordingly, in the evening, he quietly went out to the coachhouse, and, well wrapped up, crouched in a corner of the carriage and waited.

Soon the boys came, very stealthily, and, without looking into the vehicle, began their operations very quietly, and in whispers, and with many a "Hush" and "Take care" and "Look out," they succeeded in getting it out of the house and yard and into the road.

There they were all right, but they were puzzled to find the thing so heavy to haul, and amid grumblings and puffings and pantings, varied occasionally with a strong expression of disgust, they succeeded in reaching the woods, the principal listening to their complaints

and rather enjoying the situation. Having with some difficulty backed the carriage into the brush, they began to congratulate each other on the success of their maneuver. The old gentleman, letting down the window, to their utter surprise and alarm, very quietly

"Now, young gentlemen, just take me back very carefully, if you please." -Spare Moments.

She Will Teach Bonnet Making.

Mlle. Valentine About, daughter of Edmond About, the author, is going to open a "class in hat and bonnet making." Everybody in Paris is surprised at the necessity for it, as during his lifetime About kept open house in his hotel on the Rue de Donai, and a fete that he gave to the Authors' society in the chateau he had just bought at Pontoise is remembered as almost princely. By what reverse of fortune About's family were left destitute nobody seems to know. Although he himself began life humbly as the son of a grocer, his daughter was a brilliant young society woman brought up in luxury, and everybody is admiring the courage with which she has undertaken to solve the difficult problem of the "struggle for life."-Boston Woman's Journal.

Whitenead Torpedoes.

A Whitehead torpedo carries 220 pounds of wet gun cotton and weighs ready for service 1,160 pounds. Its maximum length is 16 feet 5 inches and its greatest diameter is 17.7 inches. At a speed of 28 knots per hour it has a range of about 850 yards. The torpedo of 1,000 pounds per square then,

operates a three stage engine

SMOKELESS POWDER.

CORDITE THE MOST POTENT EX-PLOSIVE OF MODERN TIMES.

It Is Composed of Nitroglycerin, Gun Cotton and Vaseline-The Interesting Process by Which Its Dangerous L'ements Are Combined.

Since the advent of the speedy torpedo boat and since rapid firing guns have been placed on battleships and cruise an explosive that would allow to the officers and gunners an unobstructed view of an enemy under all conditions lars have been expended in the effort to obtain a satisfactory substitute for black gunpowder. Cordite, the latest explosive, is said to be the most satisfactory propellant of modern times for naval warfare, and the expert opinion seems to be that in a few years gunpowder as now understood will have vanished.

The earliest records of established powder milis show that there was only one in operation in 1590, this one being in England. During the year 1887 the Waltham Abbey Powder mills were purchased by the English government. They are still conducted by it. The Faversham mills, which up to that date were the largest in the world, passed into the hands of a private corporation in 1815. The manufacture of powder was continued without much improvement, except in the efficiency of the grinding and mixing machinery, until about 35 years ago, the formula for black powder being saltpeter 75 parts, charcoal 15 parts and sulphur 10 parts, the whole forming a mechanical mixture and not a chemical compound.

Smokeless powder, however, became absolutely a necessity, for the reason confirm this tradition, to this day in that smoke producing powders masked the object aimed at, and the torpedo boat, which was becoming a recognized feature of naval warfare, could dash up and discharge one or more deadly missiles under cover of the smoke.

Smokeless powders were first produced in France, and for some time the secret of the manufacture was guarded jealously. As soon as the necessity for this kind of powder became apparent, however, a number of manufacturers devoted attention to it, and as a result various brands of smokeless explosives were placed on the market.

The most satisfactory results eventually made their appearance in cordite, which was produced through experiments made by Professor Dewar and Sir Frederick Abel. Cordite is composed of glycerin is an oily, colorless liquid and A plan was formed among some of an active poison. It is produced by mixing kept below a temperature of 70 degrees F. by passing air and cold water through it. After the mixture has stood a sufficient time the acids are drawn off, and the residue (nitroglycerin) is washed and filtered.

Nitroglycerin cannot be ignited easily by a flame, and a lighted match or taper plunged into it would be extinguished. It is sensitive to friction or percussion, either of which will detonate it. Another peculiarity is that the higher the temperature the more sensitive it becomes. It will solidify at a temperature of 40 degrees, and its explosive force is estimated to be about twelve times that of gunpowder.

One of the most approved methods used in the manufacture of gun cotton is this: The raw cotton is torn into shreds, dried and dipped in a mixture of sulphuric and nitric acids. It is then placed in a stream of running water and washed thoroughly. The cotton is then wrung out, usually in a centrifugal ma-

It is afterward boiled, dried, cut into pulp and pressed into disks. When the gun cotton is finished, there should be no trace of the acids remaining. Vaseline, the other component part of cordite, is the well known extract from petroleum, and its usefulness is chiefly to lubricate the bore of the gun and thus lessen the friction between it and the projectile. It also has a tendency to impart a waterproof nature to cordite.

A colorless liquid prepared from acetate of lime, called acetone, is used as a solvent in the manufacture of cordite. The method of preparing the explosive is: The required proportion of nitroglycerin is poured over the gun cotton, and the two, with the addition of acetone, are kneaded together into a stiff paste. Vaseline is then added, and the whole compound, after being thoroughly mixed, is put into a machine and the cordite pressed out and cut into lengths, after which it is dried.

To the artillerist the nature of cordite is represented by a fraction whose numerator gives in hundredths of an inch the diameter of the die through which the cordite has been pressed, its denominator being the length of the stick in inches. The cordite known as 30-12, which is the size used for the 6 inch quick firing guns, signifies that its diameter is three-tenths of an inch, and it is 12 inches long.

It is necessary to use a fine grain powder to ignite a charge of cordite, it being secured in such a manner that a is driven by compressed air at a pressure flash from the tube firing the gun will cause the explosion of the charge. A

full charge of powder for a 12 inch gun is 295 pounds, while the cordite charge, having the same efficiency, is only 1671/2

Cordite is one of the safest explosives known, and is not dangerous unless it is confined. It can be held in the hand and lighted without danger. It burns slowly and with a bright flame. Although comparatively a new discovery, it is used extensively in every navy throughout the world. It was manufactured first in Great Britain and was in general use on her battleships before adopted by other powers .- New York

REDUCED FARES

To Various Points via Pennsylvania Lines.

Excursion tickets will be sold via Pennsylvania Lines as indicated in the following paragraphs. Although concessions in fare are authorized for meetings of certain Orders, tickets may be obtained by any person whether a member of the order or interested in the event. The reduced rates will be open to everybody.

ERLANGER'S.

ALARMED

Because Judge Smith Is Hearing Evidence

OUTSIDE ITS OWN PRECINCTS

He Is Not Holding a Regular Session of Common Pleas Court as the Patriot Seems to Think-An Argument Against That Course.

Because Judge Smith is hearing testimony in a few cases in Wellsville this week the Lisbon Patriot takes time to look upon it as a serious matter, giving utterance to the following:

"As Judge Smith has concluded to hold court in Wellsville this week the question has arisen among lawyers as to whether the findings and judgments rendered away from the county seat will stand the test and bind the parties. It is generally conceded that without the consent of all parties to the suit no legal trial can be had away from the court house. With the consent of all the parties some attorneys maintain that a judgment away from the seat of justice would be binding, while others claim that it would not be binding. The law contemplates that court shall be held at the seat of justice, and whenever any action is required of a common pleas judge away from the county seat, the statute provides for it. It no where provides that he may hold court for the trial of cases at any other place except the county seat, and therefore the logical conclusion is reached that trials held elsewhere would not bind the parties. Even if by agreement a trial was had before Judge Smith at Wellsville it would not bind the parties any more than if by an agreement a trial was had before General Reilly. Neither gentlemen is the court as constituted by law. They are not arbitrators either. We apprehend that the true situation is that no legal common pleas court can be held away from the seat of justice, and that its decrees and judgments made away from the court house are null and void."

Either the learned Patriot is not possessed of the facts or some interest has made it close its eyes and deliberately misrepresent the matter. Judge Smith did not adjourn common pleas court to Wellsville, and it is not now there in session. He adjourned it for a week, and during the recess is simply taking testimony in cases that will not be decided until next Monday in Lisbon. There is no reason for alarm on the part of the Patriot.

WHY HE WAS JANITOR.

William Irwin Wanted Time to Re-

William Irwin, who has been janitor at city hall for several weeks, said to a reporter vesterday evening.

"I do not have to stay here another minute unless I want to. I have been drinking since I was 11 years old and I want to get away from the cursed appetite. Yes, I will do this if it takes all summer, and then after that I will be worth something."

Mayor Bough said his time was up Saturday and he could go when he wanted to. He has secured the name of the best worker ever at city hall.

ESCAPED FROM JAIL.

Doc Stewart Had Some Fun With the Police.

Doc Stewart, the Beaver county man who created a great commotion at Beaver Falls and New Brighton a few months ago, and who came here when the officers were after him, was convicted of felonious assault and battery, at Beaver last Monday, but he could not permit the matter to pass without some dramatic incident.

Yesterday morning he escaped from the Beaver jail and hastened to Rochester, where he was captured at noon by Officers Carey and Duff.

MAYOR BOUGH'S REPORT

Showed Unusual Activity In the Police Department.

In the report which Mayor Bough presented to council last night he showed that during the month he had collected \$203.50 in fines and licenses for the city. There were 39 cases considered and 10 licenses granted. All money due the city was paid.

He also collected \$50 in state cases. That money goes to the county.

Whipped His Horses.

Because his team of horses would not pull a heavily loaded wagon up a hill road leading to Trentvale street, last evening, the driver used his whip unmercifully. The Humane society should look after the individual.

PLAGUE OF LEGISLATORS.

Why Some of the States Once Had Two Capitals.

Baton Rouge freely translated means red stick. That is the limit of my understanding of the affair, however. It is a quaint old town, consisting chiefly of river. When I studied geography several decades ago, I knew that Louisiana had two capitals, one at New Orleans and the other at Baton Rouge. They have got tired of entertaining legislators at New Orleans of late years and have unloaded the whole job upon the smaller and more nearly defenseless city.

Looking back to those old days, I recall that Louisiana was one of the very few states which required two vents for their legislatures. Connecticut was one, with Hartford and New Haven as capitals, and Rhode Island, the smallest of states, was another, with Providence and Newport. Of late years there has been a sort of centralization of capitals. The fashion of having one at every enterprising city in a state has fallen into The feats of jugglery performed by disuse. You might tramp all over any of the states nowadays and not run the risk of blundering into a legislature in full blast where it might have been least expected. I asked the Pocatello man what he thought was the reason for the wealth of capitals in earlier

"In those days," he said, "the states were young and tender and had not fully developed their muscle and their power of resisting great assaults. It was therefore to distribute the evil of a legislature sitting over a great deal of country so as not to give any particular city the worst of it. As time went on and a town showed especial hardihood and ability to stand great calamity the legislature was switched upon it as a perpetual and permanent institution. New Orleans and Newport and other towns which in other days were capitals had the good luck to draw two aces and to win out, sending the legislature in the one instance to Baton Rouge and in the other to Providence. It takes a game town to stand a persistent plague of legislature."—Chicago Record.

COLOR IN FLAGS.

Red Predominates Largely In the Standards of the Chief Nations.

Though the policy of military authorities in using less glaring colors in uniforms has been very marked of late years red remains the most popular color for national standards. Of 25 countries 19 have flags with red in them, the list including the United States, England, France, Germany, Austria, Italy, Spain, Denmark, Belgium, Sweden, Switzerland, Turkey, Mexico, Chile, Portugal, Venezuela and Cuba.

The countries which have blue as an States, Russia, France, England, Holland, Ecuador, Sweden, Chile, Venezuela, Portugal and Cuba. Three countries have black as one of the elements of their flags, Germany, Belgium and China, but Germany is the only one of three which has black and white together.

There are five countries (excluding from consideration Ireland, the familiar flag of which is not officially recognized among the national standards) which have green as a color; Brazil, the flag of which is green chiefly; Mexico, Egypt, Italy and Persia. There are nine countries in which the flag is partly of yellow. These countries are Austria, Spain, Belgium, Egypt, Sweden, China, Persia, Brazil and Venezuela. Countries with flags partly white are the United States, France, Germany, Russia, Austria and Italy, six of the seven chief

There is no white in the national standard of England, but the British naval flag has a white background. Other countries having white in their flags are Switzerland, Turkey, Persia, Japan, Mexico, Holland, Denmark, Portugal, Cuba, Chile and Ecuador, the flag of which is nearer white than any other country, being made up of two parallel white columns, between which is a column of blue, upon which are white stars.-New York Sun.

Made Sure of It.

Some time ago I was at a small village in Somersetshire fitting up a steam

As is well known, water is a most essential thing in a dairy. So, being unable to obtain a sufficient supply from a well already sunk, it was suggested to open a disused well near and try the water there.

Instructions were given to the men to be careful on opening the well, as it might be unsafe to descend on account of foul air.

They were told to light a candle and let it down, and if it continued to burn they would then know that there was no danger in descending.

On the following day, on asking if it was safe to go down, one of the men replied: "Yes, that's safe enough. I took the candle down with me, and it burnt beautifully."-London Globe.

There are about 1,500 American students in Paris, most of them in art, and about 900 in Berlin, most of them in music, philosophy and the sciences. In France the degrees and diplomas are granted by the national government not by the universities.

The Roman penny was valued at about 15 cents.

ANCIENT TRICKSTERS

QUEER CONJURING FEATS OF THE SEVENTEENTH CENTURY.

Little Experiments In Which Bolling the Heads Off Living Animals Was a Necessary Adjunct-How They Killed a Horse and Cured Him Again.

Conjurers in ancient times were not very respectable members of societywhen successful, they enjoyed the reputation of having sold their souls to the evil one, and when of inferior ability they gained notoriety by being either drowned or burned. The medieval magicians as well as the Egyptian magi and the Chaldean sages were only a strange mixture of chemist, conjurer and charlatan, and as these gentlemen were in the habit of using their supposed occult powers to their own advantage they were naturally unpopular. these craftsmen were intended for the mystification and not the amusement of the public, and for centuries conjuring had to it only a black side.

The amateur conjurer of today is not always a popular individual, save with children and the unsophistocated yokel. To the general public he is merely a bore of greater or less magnitude, whose performance is so obvious as to deceive no one. It is hard to realize that this person is no mere mushroom growth of modern society, but in point of fact his role is one of a respectable antiquity, for he is to be found treading close upon the heels of the magicians and in the days when witchcraft was still rampant. This is significant of his reputation even in those early times, for had any one taken his tricks seriously he would doubtless have been run to earth and

done to death as a wizard. In the middle of the seventeenth century, in the earliest years of the restoration, a number of tricks were published in one of those facetious books which seem to have occupied the press to a great extent at this time, but which, owing to their popularity, have for the most part perished. The chief recommendation to the greater number of these tricks is that no apparatus beyond the utensils of everyday life is necessary. Also it is suggested to the performer that he can make some small profit out of his entertainment by prevailing on his audience to bet with him on the result of the trick.

"To set a horse's or an asse's head upon a man's head and shoulders" seems impossible out of the land of Faery, but we are informed that by boiling the head cut off from a living animal, "the flesh boyl'd may runne into oyle," and then by mingling the element of their flags are the United hair beaten into powder with this oil and anointing the heads of the standers by, "they shall seem to have horses' or asses' heads''-a costly experiment and fearsome if successful.

But, besides this, one can "make people seem headlesse," and this without bloodshed and by the following simple receipt: "Break arsenick very fine, and boyle it with sulphur in a cover'd pot, and kindle it with a new candle, and the standers-by will seem to be headlesse." Doubtless a strong imagination is necessary for success.

Some of the tricks are such as would nowadays cause the performer to be disliked, to put it mildly. For instance, "have a nut filled with ink, and give this unto another and bid him crack it and see what he can find in that, which being done "will cause much laughter."

"To keep a Tapster from frothing his Pots" must have been an amusement to the wags of the period, and for this "provide in readinesse the skin of a red Hering, and when the Tapster is absent a. m. to 3 p. m. do but rub a little on the inside of his Private Wires, pots, and he will not be able to froth them, do what he can, in a good while after."

"To counterfeit a diamond with a white saphir" is a most useful accomplishment, but the fraud is likely in these days to be discovered and is more a chemical experiment than a trick.

Several tricks are recommended which have animals as their subject and are for the most part brutal to our modern ideas. Perhaps the least objectionable is "to seem to kill a Horse and cure him again," which may be thus accom-

"Take the seed of henbane and give it the Horse in his Provender, and it will cast him into such a deep sleep that he will seem dead. If you will recover him again, rub his Nostrils with Vinegar, and he will seem to be revived." The "seem to be revived" sounds rather ominous, and it is to be noted that the correct quantity of henbane is not mentioned, so that it might be best to try this experiment on some one else's horse.

"To make a shoal of Goslings draw a Timber logge" sounds interesting, but unfortunately the directions are vague "To make a shoal of Goslings or a Gaggle of Geese to seem to draw a Timber logge is done by the verie means that is us'd when a Cat draws a fool through a Pond, but handled somewhat further off from the Beholders." - London Standard.

A \$342,000 cork may seem a little extravagant, but consider the size of the bottle and the value of the contents :-Hartford Courant.

LISBON IS ALARMED

Because Judge Smith Is Hearing Evidence

OUTSIDE ITS OWN PRECINCTS

He Is Not Holding a Regular Session of Common Pleas Court as the Patriot Seems to Think-An Argument Against That Course.

Because Judge Smith is hearing testimony in a few cases in Wellsville this week the Lisbon Patriot takes time to look upon it as a serious matter, giving utterance to the following:

"As Judge Smith has concluded to hold court in Wellsville this week the question has arisen among lawyers as to whether the findings and judgments rendered away from the county seat will stand the test and bind the parties. It is generally conceded that without the consent of all parties to the suit no legal trial can be had away from the court house. With the consent of all the parties some attorneys maintain that a judgment away from the seat of justice would be binding, while others claim that it would not be binding. The law contemplates that court shall be held at the seat of justice, and whenever any action is required of a common pleas judge away from the county seat, the statute provides for it. It no where provides that he may hold court for the trial of cases at any other place except the county seat, and therefore the logical conclusion is reached that trials held elsewhere would not bind the parties. Even if by agreement a trial was had before Judge Smith at Wellsville it would not bind the parties any more than if by an agreement a trial was had before General Reilly. Neither gentlemen is the court as constituted by law. They are not arbitrators either. We apprehend that the true situation is that no legal common pleas court can be held away from the seat of justice, and that its decrees and judgments made away from the court house are null and void."

Either the learned Patriot is not possessed of the facts or some interest has made it close its eyes and deliberately misrepresent the matter. Judge Smith did not adjourn common pleas court to Wellsville, and it is not now there in session. He adjourned it for a week, and during the recess is simply taking testimony in cases that will not be decided until next Monday in Lisbon. There is no reason for alarm on the part of the Patriot.

WHY HE WAS JANITOR.

William Irwin Wanted Time to Reform.

William Irwin, who has been janitor at city hall for several weeks, said to a reporter yesterday evening.

"I do not have to stay here another minute unless I want to. I have been drinking since I was 11 years old and I want to get away from the cursed appetite. Yes, I will do this if it takes all summer, and then after that I will be worth something."

Mayor Bough said his time was up Saturday and he could go when he wanted to. He has secured the name of the best worker ever at city hall.

ESCAPED FROM JAIL.

Doc Stewart Had Some Fun With the Police.

Doc Stewart, the Beaver county man who created a great commotion at Beaver Falls and New Brighton a few months ago, and who came here when the officers were after him, was convicted of felonious assault and battery, at Beaver last Monday, but he could not permit the matter to pass without some dramatic incident.

Yesterday morning he escaped from the Beaver jail and hastened to Rochester, where he was captured at noon by Officers Carey and Duff.

MAYOR BOUGH'S REPORT

Showed Unusual Activity In the Police Department.

In the report which Mayor Bough presented to council last night he showed that during the month he had collected \$203.50 in fines and licenses for the city. There were 39 cases considered and 10 licenses granted. All money due the city was paid.

He also collected \$50 in state cases. That money goes to the county.

HE NEWS REVIEW PRESS.

TO THE ADVERTISERS.

The Evening News Review has the largest bonafide PAID daily circulation of any paper pub-lished in East Liverpool, and the largest circulation in Wellsville of any daily paper published in East Liverpool. Keen witted and wide awake business men and advertisers will make note of these facts.

HARRY PALMER, Owner and Manager.

TO BUSINESS MEN.

The combination prices of the NEWS REVIEW, advertisement in paper and bills from said advertisement, are cheaper than any other daily paper in the city, while the workmanship, material and inks made use of are incomwould-be competitors. Test the matter. We will prove the truth of our assertion.

Printed envelopes, either 6 or in size, at the NEWS RE-VIEW, from 95 cents per thousand up, according to quality. We defy competition in workmanship or material.

LOCAL BREVITIES.

Born to Mr. and Mrs. John T. Salmon of Norton street, a daughter.

A. C. Wolf, of Freeport, is spending a few days in the city on business.

George Gardner, of Pittsburg, spent yesterday visiting friends in town.

A number of young people from Wellsville attended a dance at Rock Spring last night.

The kiln hands at the Goodwin pottery returned to work this worning after loafing several days. It was learned last evening that a

well known clerk at the freight depot would soon be married. Lawrence Bloor entertained a number

of his young friends at his home in Railroad street last evening. William Boulton, who has been spend-

ing several days in the city, left this morning for his home in Carrollton.

Travel to Wellsville last night on the street railway was very good and the night's receipts showed a noticeable increase.

Thomas Foster and D. E. McNicol, who have been spending some time in North Carolina, returned home this morning.

Miss Annie Wade will leave for New York tomorrow from where she will sail on the Campania for England next

A fine horse was brought to the city last evening by the steamer Kanawha. It was consigned to John Anderson, Broadway.

The street force today cleaned West Market street. The heavy rains of Monday caused dirt six inches deep to accumulate.

Harry Carey, of Kokomo, will move his effects to this place next week. He will live in the new house of Squire Rose in West Market street.

Clerk Hanley was very busy this morning making out the pay roll for the ementh of May. It has been five weeks since the boys received their last pay.

Olyde Stoffel 18 the name of a recruit who went with the boys to Camp Alger yesterday afternoon, having been selected to take the place of John Brookes.

The fire department yesterday received the new caps recently ordered from a Columbus firm. The caps are of the latest design and are as neat as ever in the department.

Yesterday afternoon at the freight depot four large water plugs were received from a Cincinnati foundry. Three were purchased by the city and will be placed in the East End.

Robert Moore, who had a skiff taken frem his coal float last week, found it tied to a large tree on the shore of the island. Who took the boat from its original place is yet to be discovered.

Yesterday two movings were handled at the freight depot and the cities population split even. The effects of James Hollingshead came from Wellsville and those owned by James Moreland were

sent to Blairsville. John M. Rowley, of this place, while riding his wheel from Canton to this place last Sunday, was thrown to the ground and his shoulder blade fractured. He is now under the care of a physician

at the Commercial House. Word was received in the city this morning that the father of Agent Adam Hill who has been ill at his home in Canal Dover was much worse, and he may not recover. Mr. Hill is still at his medside, and will not be home until

there is a change in his condition. Work on the West End trestle is being washed as rapidly as possible, and there is no reason to believe cars will not be crossing Saturday. There would have seen no transferring but for the fact that plans were changed raising the bridge two feet.

Managing a Husband.

It is ridiculously funny to hear two or three married women discuss the momentous question of how to manage a husband, asserts a writer in the Philadelphia North American. Yesterday I dropped in at a bride's cute little home to sip a cup of tea. The poor little creature had evidently had a slight difference with "hubby" before he left in the morning, for she seemed a wee bit unhappy. It was not long before a young matron entered and made a third to the party. This particular matron has a great reputation for managing in discussing the advisability of adopther spouse and was just the person "the bridey" needed. She commenced at once, and this was the conversation:

"My dear, is your husband ever

"What a funny question! He is never anything else.'

"How in the world do you manage

"I don't try. I just let him alone." "But how do you make up?"

"We don't. He is always as cross as two sticks at breakfast. They say most men are. He gets off a lot of sarcastic things about women attending to their households, clubwomen, and so forth, and then he goes away mad."

"Oh, dear me, you poor thing! And yet Tom told me this morning you were so congenial and so well suited to each other.'

"So we are. When Harold comes home in the evening, he hands me a little package and says he hopes it will please me. I tell him he is too good and that I wish all women had as good a husband as mine. Then I see what he is giving me. Sometimes it's a lovely belt or a new chatelaine or a fancy scarf or something of that sort, and I give him a kiss and ask him to forgive me for being cross in the morning.'

The little hostess looked dazed and went on sipping her Russian tea in profound silence. Finally she broke out: "And yet you deliberately told me

you did not manage him?" Pertinent query, What has Mr. Tom in store for him in future?

Mutilating the Teeth.

It is curious to what an extent the mutilation of teeth goes on among savage nations, and even among certain civilized people, such as the Japanese. With them a girl is never married without first staining her teeth black with a repulsive kind of varnish, and the custom is especially adhered to among members of the richer classes.

On the west coast of Africa a large proportion of the teeth are deliberately broken when children reach a certain age. Both in the new world and the old the custom exists of extracting the two front teeth of domestic servants. In Peru the custom has existed from time immemorial and used to be a sign of slavery in the days of incas. This is also the custom on the Kongo and among the Hottentots. Teeth are stained in various colors among the Malays.

A bright red and a bright blue are not uncommon, and a bright green is produced with the aid of arsenic and lemon juice. Livingstone related that among the Kaffirs a child with a prominent upper jaw was looked upon as a monster and immediately killed. On the upper Nile the negroes have all their best teeth extracted in order to destroy their value in the slave market and to make it not worth while for the slave traders to carry them off .- Pearson's Weekly.

Proof of It.

"I suppose Saxey and Slims are both truthful men?"

"Absolutely so. Neither of them is capable of making a misstatement of fact. Why?"

"Oh, I just heard them calling each other liars."-Detroit Free Press.

Of the eggs exported from Russia to other parts of Europe 25 per cent are broken or have to be thrown away before they get into the hands of con-

Will Clean a Well.

The work of laying the new six-inch main in East End will be finished this week. Next week the force will clean the well at the pumping station.

Home For the Summer.

Mrs. M. B. Johnson who has been teaching in the Mary Holmes seminary at West Point, Miss., will return home this evening for the summer.

PERSONAL MENTION.

-Mr. and Mrs. Monroe Patterson spent the day in Pittsburg.

-Mrs. W. L. Thompson spent the day in Pittsburg visiting frieuds. -Frank Campbell, of New Brighton,

spent yesterday in the city visiting friends. -D. L. Cleeland and son of Butler, Pa., who have been visiting in the city

for several days, left for Minerva yes--Mrs. James Norris and three children left this morning for Millport where they will remain several weeks

visiting friends. Mrs. J. M. Kelly and Miss Dorothy Kelly left at noon today for their summer home at Birmingham, Pa. Mr. Kelly will not go until tomorrow.

AGAINST ANNEXATION.

This Declared to Be the Sentiment of a Democratic House Caucus.

Washington, June 15.—At a caucus of the Democrats of the house resolu-tions were adopted declaring the sense of the Democrats of the house to be opposed to Hawaiian annexation as a consummation that would prove injurious to the interests of the United States and contrary to the long-established and generally recognized policy of the government. The action was taken after an hour had been consumed ing any resolutions upon the proposition of annexation.

The resolutions were adopted finally, 51 to 17.

As to the effect of caucus action the Democratic advocates of annexation expressed the opinion that some votes would be lost. Prior to the caucus it was claimed that 23 would vote for annexation, but now it is believed that 14 will more nearly represent the Democratic vote in support of the resolutions.

A VOTE THIS AFTERNOON.

The Hawaiian Annexation Matter to Be Acted Upon In the House.

WASHINGTON, June 15.—Eight hours comprising afternoon and evening sessions of the house yesterday were devoted to debate of the Newlands resolutions for the annexation of Hawain. Twenty speeches were delivered, most of them being brief. A vote will be taken at 5 o'clock this afternoon.

The resolutions, according to esti-mates yesterday, will receive, with the exception of not more than 12, all Republican votes, and will enlist the sup-port of from 15 to 20 Democrats and members of other parties.

To Pay Bering Sea Award.

Washington, June 15 .- A house joint resolution appropriating \$473,151 to pay the Bering sea award was adopted in the senate yesterday.

Keifer and Gobin Confirmed.

WASHINGTON, June 15 .- The senate in executive session confirmed the following nominations, among a number: To be major general, J. Warren Keifer of Ohio; to be brigadier general, John P. S. Gobin of Pennsylvania.

ILLINOIS REPUBLICANS.

Ticket Nominated and Platform Declares For Colonial Expansion.

SPRINGFIELD, Ills., June 15.—The Republican state convention nominated the following state ticket yesterday:

State treasurer-Floyd Whittemore, Springfield.

Superintendent of public instruction-Alfred Bayliss, Streator.

Trustees of the University of Illinois-F. L. Hatch, McHenry county; A. F. Nightingale, Chicago; Alice Asbury Abbott, Chicago.

The platform commended the policy the national administration before and since the outbreak of the war and declares "the United States should hold such possessions in the conquered territory as will be advantageous to its interests in time of war and peace" and that all the conquered possessions should be held until an indemnity is

paid by Spain. The platform also favors an increase of the navy and urges the construction of the Nicaragua canal.

MELINE SWALLOWED IT.

Accepted an Obnoxious Motion In Preference to Being Voted Out.

Paris, June 15.—The chamber of deputies yesterday by 295 to 272 passed a vote of confidence in the government.

The Meline ministry later was defeated by 296 to 246 votes, amid intense excitement and an uproar, this being the passage of an amendment to the first motion obnoxious to Meline. When a lull occurred another vote

was taken on the entire motion, which M. Meline accepted, swallowing the obnoxious addition, and the motion was adopted by 284 to 272 votes.

The chamber of deputies then adjourned until Monday.

Rev. H. O. Roseborough Retires. PITTSBURG, June 15.—Seldom does

the resignation of a pastor excite so much interest as was occasioned by that of Rev. Dr. H. O. Roseborough of Montour church, which was offered yesterday to the Pittsburg presbytery and accepted by that body. For 35 years he was pastor in the Redstone presbytery and for nine years has sustained that relation to the Montour's church. But old age began to tell on his vigor and yesterday he laid down his pastorate, retiring from active work at Montour's with the best wishes and the most profound respect of every member of the presbytery.

Count Castellane Fought a Duel.

Paris, June 15.-Count Boniface de Castellane, who married Miss Anna Gould of New York, fought a duel yesterday with M. Henri Turot of The Petite Republique Française. M. Turot was wounded twice slightly and the third time severely. The dispute grew out of M. Turot's comments upon an act of infanticide committed by a serv-ant in the count's household.

Draining of Soldiers' Camp.

ALLIANCE, June 15 .- The Morgan Engineering company, with the idea of giving Company r perfect sanitary conditions, began putting in the drains yesterday. The soldiers are loud in praise of the way the company is looking after their comfort. The command was measured yesterday for new uniforms. The men will receive their first clothing from Uncle Sam in about a week.

The Weather.

Generally fair; cooler; fresh north ernly winds.

LOCAL BREVITIES.

Born to Mr. and Mrs. John T. Salmon of Norton street, a daughter.

A. C. Wolf, of Freeport, is spending a few days in the city on business.

George Gardner, of Pittsburg, spent yesterday visiting friends in town.

A number of young people from Wellsville attended a dance at Rock Spring last night.

The kiln hands at the Goodwin pottery returned to work this worning after loafing several days.

It was learned last evening that a well known clerk at the freight depot would soon be married.

Lawrence Bloor entertained a number of his young friends at his home in Railroad street last evening.

William Boulton, who has been spending several days in the city, left this morning for his home in Carrollton.

Travel to Wellsville last night on the street railway was very good and the night's receipts showed a noticeable increase.

Thomas Foster and D. E. McNicol, who have been spending some time in North Carolina, returned home this morning.

Miss Annie Wade will leave for New York tomorrow from where she will sail on the Campania for England next

A fine horse was brought to the city last evening by the steamer Kanawha. It was consigned to John Anderson, Broadway.

The street force today cleaned West Market street. The heavy rains of Monday caused dirt six inches deep to accumulate.

Harry Carey, of Kokomo, will move his effects to this place next week. He will live in the new house of Squire Rose in West Market street.

Clerk Hanley was very busy this morning making out the pay roll for the month of May. It has been five weeks since the boys received their last pay.

Olyde Stoffel is the name of a recruit who went with the boys to Camp Alger yesterday afternoon, having been selected to take the place of John Brookes.

The fire department yesterday received the new caps recently ordered from a Columbus firm. The caps are of the latest design and are as neat as ever in the department.

Yesterday afternoon at the freight depot four large water plugs were received from a Cincinnati foundry. Three were purchased by the city and will be placed in the East End.

Robert Moore, who had a skiff taken Treat his coal float last week, found it tied to a large tree on the shore of the island. Who took the boat from its original place is yet to be discovered.

Yesterday two movings were handled at the freight depot and the cities population split even. The effects of James Hollingshead came from Wellsville and those owned by James Moreland were sent to Blairsville.

John M. Rowley, of this place, while riding his wheel from Canton to this place last Sunday, was thrown to the ground and his shoulder blade fractured. He is now under the care of a physician at the Commercial House.

Word was received in the city this morning that the father of Agent Adam Hill who has been ill at his home in Canal Dover was much worse, and he may not recover. Mr. Hill is still at his medside, and will not be home until

there is a change in his condition. Work on the West End trestle is being washed as rapidly as possible, and there is no reason to believe cars will not be crossing Saturday. There would have seen no transferring but for the fact that plans were changed raising the bridge two feet.

Managing a Husband.

It is ridiculously funny to hear two or three married women discuss the momentous question of how to manage a husband, asserts a writer in the Philadelphia North American. Yesterday I dropped in at a bride's cute little home to sip a cup of tea. The poor little creature had evidently had a slight difference with "hubby" before he left in the morning, for she seemed a wee bit unhappy. It was not long before a young matron entered and made a third has a great reputation for managing her spouse and was just the person "the bridey" needed. She commenced at once, and this was the conversation:

"My dear, is your husband ever

"What a funny question! He is never anything else."

"How in the world do you manage

"I don't try. I just let him alone." "But how do you make up?"

"We don't. He is always as cross as two sticks at breakfast. They say most men are. He gets off a lot of sarcastic things about women attending to their households, clubwomen, and so forth, and then he goes away mad."

"Oh, dear me, you poor thing! And yet Tom told me this morning you were so congenial and so well suited to each other."

"So we are. When Harold comes home in the evening, he hands me a little package and says he hopes it will please me. I tell him he is too good and that I wish all women had as good a husband as mine. Then I see what he is giving me. Sometimes it's a lovely belt or a new chatelaine or a fancy scarf or something of that sort, and I give him a kiss and ask him to forgive me for being cross in the morning.

The little hostess looked dazed and went on sipping her Russian tea in profound silence. Finally she broke out:

"And yet you deliberately told me

you did not manage him?" Pertinent query, What has Mr. Tom

in store for him in future?

Mutilating the Teeth.

It is curious to what an extent the mutilation of teeth goes on among savage nations, and even among certain civilized people, such as the Japanese. With them a girl is never married without first staining her teeth black with a repulsive kind of varnish, and the custom is especially adhered to among members of the richer classes.

On the west coast of Africa a large proportion of the teeth are deliberately broken when children reach a certain age. Both in the new world and the old the custom exists of extracting the two front teeth of domestic servants. In Peru the custom has existed from time immemorial and used to be a sign of slavery in the days of incas. This is also the custom on the Kongo and among the Hottentots. Teeth are stained in various colors among the Malays.

A bright red and a bright blue are not uncommon, and a bright green is produced with the aid of arsenic and lemon juice. Livingstone related that among the Kaffirs a child with a prominent upper jaw was looked upon as a monster and immediately killed. On the upper Nile the negroes have all their best teeth extracted in order to destroy their value in the slave market and to make it not worth while for the slave traders to carry them off .- Pearson's Weekly.

Proof of It.

"I suppose Saxey and Slims are both truthful men?"

"Absolutely so. Neither of them is capable of making a misstatement of fact. Why?"

"Oh, I just heard them calling each other liars."-Detroit Free Press.

Of the eggs exported from Russia to other parts of Europe 25 per cent are broken or have to be thrown away before they get into the hands of con-

Will Clean a Well.

The work of laying the new six-inch main in East End will be finished this week. Next week the force will clean the well at the pumping station.

Home For the Summer.

Mrs. M. B. Johnson who has been teaching in the Mary Holmes seminary at West Point, Miss., will return home this evening for the summer.

PERSONAL MENTION.

-Mr. and Mrs. Monroe Patterson spent the day in Pittsburg.

Mrs. W. L. Thompson spent the day in Pittsburg visiting friends.

-Frank Campbell, of New Brighton, spent yesterday in the city visiting

-D. L. Cleeland and son of Butler, Pa., who have been visiting in the city for several days, left for Minerva yes--Mrs. James Norris and three chil-

dren left this morning for Millport where they will remain several weeks visiting friends. -Mrs. J. M. Kelly and Miss Dorothy Kelly left at noon today for their summer home at Birmingham, Pa. Mr.

Kelly will not go until tomorrow.

AGAINST ANNEXATION.

This Declared to Be the Sentiment of a Democratic House Caucus.

Washington, June 15 .- At a caucus of the Democrats of the house resolutions were adopted declaying the sense of the Democrats of the house to be opposed to Hawaiian annexation as a consummation that would prove injurious to the interests of the United States and contrary to the long-established and generally recognized policy of the government. The action was to the party. This particular matron taken after an hour had been consumed in discussing the advisability of adopting any resolutions upon the proposition of annexation.

The resolutions were adopted finally, 51 to 17.

As to the effect of caucus action the Democratic advocates of annexation expressed the opinion that some votes would be lost. Prior to the caucus it was claimed that 23 would vote for annexation, but now it is believed that 14 will more nearly represent the Democratic vote in support of the resolutions.

A VOTE THIS AFTERNOON.

The Hawaiian Annexation Matter to Be Acted Upon In the House.

WASHINGTON, June 15 .- Eight hours comprising afternoon and evening sessions of the house yesterday were devoted to debate of the Newlands resolutions for the annexation of Hawaii. Twenty speeches were delivered, most of them being brief. A vote will be taken at 5 o'clock this afternoon.

The resolutions, according to estimates yesterday, will receive, with the exception of not more than 12, all Republican votes, and will enlist the sup-port of from 15 to 20 Democrats and members of other parties.

To Pay Bering Sea Award.

WASHINGTON, June 15 .- A house joint resolution appropriating \$473,151 to pay the Bering sea award was adopted in the senate yesterday.

Keifer and Gobin Confirmed.

WASHINGTON, June 15 .- The senate in executive session confirmed the following nominations, among a number: To be major general, J. Warren Keifer of Ohio; to be brigadier general, John P. S. Gobin of Pennsylvania.

ILLINOIS REPUBLICANS.

Ticket Nominated and Platform Declares For Colonial Expansion.

SPRINGFIELD, Ills., June 15 .- The Republican state convention nominated the following state ticket yesterday:

State treasurer-Floyd Whittemore, Springfield.

Superintendent of public instruction-

Alfred Bayliss, Streator. Trustees of the University of Illinois-F. L. Hatch, McHenry county; A. F. Nightingale, Chicago; Alice Asbury Abbott, Chicago.

The platform commended the policy of the national administration before and since the outbreak of the war and declares "the United States should hold such possessions in the conquered territory as will be advantageous to its in- at New Castle terests in time of war and peace" and that all the conquered possessions should be held until an indemnity is

paid by Spain. The platform also favors an increase of the navy and urges the construction of the Nicaragua canal.

MELINE SWALLOWED IT.

Accepted an Obnoxious Motion In Preference to Being Voted Out. Paris, June 15.—The chamber of

deputies yesterday by 295 to 272 passed a vote of confidence in the government. The Meline ministry later was defeated by 296 to 246 votes, amid intense excitement and an uproar, this being the passage of an amendment to the

first motion obnoxious to Meline. When a lull occurred another vote was taken on the entire motion, which M. Meline accepted, swallowing the obnoxious addition, and the motion was

adopted by 284 to 272 votes. The chamber of deputies then adjourned until Monday.

Rev. H. O. Roseborough Retires.

PITTSBURG, June 15.—Seldom does the resignation of a pastor excite so much interest as was occasioned by that of Rev. Dr. H. O. Roseborough of Montour church, which was offered yesterday to the Pittsburg presbytery and accepted by that body. For 35 years he was pastor in the Redstone presbytery and for nine years has sustained that relation to the Montour's church. But old age began to tell on his vigor and yesterday he laid down his pastorate, retiring from active work at Montour's with the best wishes and the most profound respect of every member of the presbytery.

Count Castellane Fought a Duel.

Paris, June 15 .- Count Boniface de Castellane, who married Miss Anna Gould of New York, fought a duel yes-terday with M. Henri Turot of The Petite Republique Française. M. Turot was wounded twice slightly and the third time severely. The dispute grew out of M. Turot's comments upon an act of infanticide committed by a servant in the count's household.

Draining of Soldiers' Camp.

ALLIANCE, June 15 .- The Morgan Engineering company, with the idea of giving Company r perfect samtary conditions, began putting in the drains yesterday. The soldiers are loud in praise of the way the company is looking after their comfort. The command was measured yesterday for new uniforms. The men will receive their first clothing from Uncle Sam in about a week.

The Weather.

Generally fair; cooler; fresh north ernly winds.
